Jennifer Ilsley Debbie Watson Louise Gannon Welcome to the Grant Thornton model accounts for the social housing sector under Financial Reporting Standard 102 – 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' ('FRS 102'). These are applicable for housing associations with year ends from 31 December 2023 onwards, reflecting the current reporting requirements. 31 March 2024 is the year end modelled in these accounts.

We know many of you use these accounts to identify key reporting disclosures and as always, we have endeavoured to reflect the key disclosures in these model accounts. This version includes disclosures that are commonly applicable as well as providing additional disclosures that you may want to consider for best practice. We acknowledge that best practice in the sector and the application of accounting standards is constantly developing and there may be detail in the disclosures that we have not covered in this version.

Grant Thornton have also produced FRS 102 illustrative accounts for the year ended 31 December 2023 which we encourage you to consider in tandem with these housing model accounts. The FRS 102 accounts follow UK GAAP principles and provide detailed disclosures which may be an additional source of support for those preparing housing accounts.

There were no significant financial reporting changes applicable for 2023-year ends, meaning that our model accounts for 2022-year ends could be rolled forward. For 2024, we have refreshed the model accounts but note that again, there are no new accounting standards to grapple with this year. We anticipate that the model accounts for 2025 will see the FRED 82 FRS 102 changes implemented and so housing providers should be mindful of possible changes to revenues and leases, as well as other modifications and clarifications. A summary of the proposed changes can be found <u>here</u>.

The sector faces significant pressures in the ongoing cost of living crisis which may have accounting and reporting ramifications. Housing associations face increasing scrutiny following the damp and mould investigations at the end of 2022, and with it, additional costs to rectify issues and bolster reporting processes. Implementation of the new Social Housing (Regulation) Act 2023 is also bringing in new costs and heightened scrutiny. The last 18 months has brought challenges in the form of changes to fire and building safety and consumer regulations; skilled staff and raw materials shortages; decarbonisation projects and increasingly higher cost bases from rising inflation and interest rates to name a few. It is critical to explain all major changes in the front-end reports this year as well as planning for an efficient and smooth reporting process at year-end.

The implications of the macroeconomic pressures and sector challenges will affect the financial and narrative reporting, including any significant judgments and estimates disclosures to varying degrees.

As housing associations prepare for their 2023/24 annual accounts in an uncertain economic landscape, it is essential to be transparent in financial reporting and providing disclosures as specific to the organisation as possible.

Early and effective planning will help address the fact that preparation of the annual accounts may, yet again, take longer this year especially where key judgments are involved, where additional consideration is required for climate-related matters or risk reporting.

This year's model accounts apply the Accounting Direction 2022 and include some incremental improvements to notes and accounting policies based on our sector experience. We also include some additional guidance on best practice in narrative and financial reporting from our observations and incorporating some of the key messages from the Financial Reporting Council where we consider these to be equally relevant to the housing sector. I hope you find the information included in our model accounts useful as you prepare for this year's reporting season.

### Guidance when using this document

These model accounts are intended as a guide for social housing associations preparing financial statements in accordance with:

- FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102),
- the Statement of Recommended Practice (SORP) for social housing providers 2018; and
- the Accounting Direction 2022.

Their preparation involved striking a balance between helpful guidance and burdensome detail. The disclosures illustrated, therefore, do not include all possible disclosures, as this would clearly make any guidance too unwieldy to be of wide, practical use. For this reason, they should not be used as a substitute for completing a disclosure checklist.

Whilst every care has been taken in their preparation, users are advised to use these financial statements as a guide, in conjunction with the actual text of the standard and implementation guidance issued, together with relevant legislation, and to consult their professional advisers before concluding on accounting treatments and disclosures for their own transactions and circumstances. We have assumed in this model that Affordable Housing Provider (AHP) does not have any listed debt and does not apply hedge accounting. Organisations with such instruments should consult directly with their auditors prior to preparing their financial statements.

### Narrative reporting Introduction

In this section of the model accounts, we have decided to highlight some considerations and areas of best practice to bear in mind when compiling narrative reports, rather than to issue "template-style" guidance, as we do not want to encourage boilerplate wording.

Some of the key themes and areas of consideration include a recap on regulatory and statutory requirements, changes to reporting requirements, for example around climate change reporting, as well as seeking to achieve best practice in narrative reporting.

#### Narrative reporting

We use the term 'narrative reporting' to cover a series of reports that constitutes the front end of the annual report. The Housing SORP 2018 (section 4.2) requires a complete set of accounts to include:

- A report from the board to include disclosures required by applicable legislation and regulation. For many, this will also include the strategic report. This is normally presented as a separate report, or as a section of the report from the board; and
- A statement of responsibilities of the board

For most entities, the key document that should provide stakeholders with a holistic and meaningful picture of an entity's business model, strategy, development, performance, position, and future prospects, is the strategic report.

A key way of ensuring that narrative reporting is not only compliant but achieves best practice, is to focus on the objectives of these narrative reports, as set out in section 4.1 of the SORP:

- To provide information on the social landlord, insights into its main objectives and strategies, and principal risks it faces;
- To complement, supplement and provide context for the related financial statements.

#### Compliance with narrative reporting requirements

The current narrative reporting requirements for private registered providers (PRPs) of social housing are embodied in the Housing SORP 2018, the Accounting Direction 2022 and, for those providers incorporated under the Companies Act, the Companies Act 2006.

### Demonstrating transparency and compliance with the regulatory standards

The Accounting Direction effectively expands the narrative reporting requirements for PRPs<sup>1</sup> to include an assessment of:

- How it is achieving value for money in delivering its purpose and objectives in accordance with the Regulator's Value for Money Standard;
- · Compliance with its chosen Code of Governance; and
- Compliance with the Governance and Financial Viability Standard, in the form of certificate of compliance (or the extent of non-compliance).

#### Value for Money (VfM) - transparency in reporting

The current VfM Standard has applied to all registered providers of social housing since 1 April 2018. The VfM Code of Practice (the Code) is designed to amplify the requirements in the VfM Standard (the Standard). Registered providers must have regard to the Code when assessing their compliance against the Standard.

Alongside the Standard and the Code, the Regulator of Social Housing ('the Regulator') published a Technical Note which sets out seven value for money metrics that registered providers are required to report against. The metrics do not form part of the Standard itself but are a separate tool for registered providers to demonstrate that they are making best use of their assets and resources to stakeholders, including tenants and the Regulator.

The VfM reporting should demonstrate how the provider is complying with the Standard, and in particular, compliance with the transparency requirements of the Standard. The published statement should explain what has been delivered in the year, including any future plans on how to optimise return on assets and VfM gains.

The reporting on VfM is required in the statutory accounts in a way that is clear, concise and appropriate to the registered provider's stakeholders. Registered providers must ensure that the reporting undertaken on VfM is at a group level, taking into account its organisational structure. In addition to the annual accounts, registered providers are free to report on VfM in any way they see fit, if they consider this will increase the transparency with stakeholders.

<sup>1</sup> The Accounting Direction applies to PRPs in terms of the preparation of their accounts and to profit-making PRPs only in so far as their ac counts relate to Social Housing Activities.

#### Going concern

Accounting standards require associations to make disclosures on the going concern basis of accounting and material uncertainties in their financial statements. In making their assessment of the association's ability to continue to adopt the going concern basis of accounting and material uncertainties, management must consider a period of at least 12 months from the date the financial statements are authorised for issue. [FRS 102 paragraphs 3.8 and 3.9]

In addition to this, most associations will prepare a strategic report, where appropriate, and the information in the strategic report should have a forward-looking orientation as required by the SORP. Further, the strategic report should provide the information necessary for users of the financial statements. [Housing SORP 4.6 and 4.7]

As a result of this, there should be disclosure on the going concern assessment in the strategic report as well as the basis of preparation in the accounting policies. Further details on what to consider including has been included within the accounting policies section of the model accounts.

### Principal risks and uncertainty disclosures – the macroeconomic climate has shifted

SORP 4.2 requires the strategic report to provide the information necessary for users of the financial statements to assess the principal risks and uncertainties faced by the association.

It is important to continually assess which risks are relevant to the association in the context of the current uncertain macroeconomic climate, taking into account current issues around high inflation and cost of living. Reporting on the principal risks and uncertainties should be closely linked, and where possible referenced, to all areas of the financial statements where uncertainties around specific risks exist. We discuss in turn some of the key risk areas that associations should consider as they prepare for this year's reporting.

There is additional focus on risk reporting under the NHF Code of Governance 2020<sup>2</sup> which requires the annual report to include a statement about the risk management work of the board, including its understanding of principal and emerging risks and how these are being managed or mitigated.

#### The cost-of-living crisis risk

2023 has been dominated by news of increasing costs. Utilities, insurance, fuel and food, to name but a few, have all seen significant rises over the last 18 months. Inflation, although slowly beginning to decrease in the latter part of 2023 and into 2024, is expected to be 7.2% on average, throughout 2023 – higher than any other advanced economy<sup>3</sup>. Not only is the sector facing these cost pressures directly, but staff members are also feeling the pinch. As a result, unbudgeted, across-the-board pay rises have been seen throughout 2022 and 2023 with further rises anticipated from April 2024. For some housing associations, these additional cost pressures may have adversely affected cash flow and profitability and may continue to do so in the coming year.

Transparent reporting is critical as stakeholders wish to understand how risks have changed over time. It is important for the users of the accounts to understand how the board and management have responded in a difficult economic environment as well as understanding the impact this may have had on any risk profiles and risk registers including any emerging risks.

<sup>2</sup> Paragraph 4.3(8) of the NHF Code of Governance 2020

<sup>3</sup> UK inflation forecast to be highest of advanced economies - BBC News

#### **Reflecting on climate related risks**

The upcoming reporting season presents a fresh opportunity for housing associations to consider the impact of climate-related risks on their accounts and narrative reporting. Not only should information in the annual report be transparent, but it should also be consistent with accounting assumptions made elsewhere in the accounts, for instance in the accounting policies, significant judgments and estimates.

Many housing associations may still be in the very early stages of identifying, planning and committing to climate change actions, which are yet to have any effect on the numbers in the accounts, and therefore the narrative in this regard should be clear. The key is coordination between the narrative reporting in the annual report and the amounts recorded in financial statements to aid the users understanding.

#### Cyber security and risk reporting

The other topical risk area is cyber security, particularly with hybrid working as well as the increasing use of digital platforms, associations need to provide clear reporting on how cyber related risks are being managed and what mitigation strategies are in place to deal with a potential cyber-attack. More broadly, the Not-for-Profit sector is increasingly a target area for hackers and digital attacks, so a robust control environment and response plan is required. Please refer to our 2024 roundtable <u>report</u> where we discussed cyber security in the Not-for-Profit sector.

#### Sector risk profile

In November 2023, the Regulator published its 2023 Sector Risk Profile<sup>4</sup>. The report noted that the operating environment remains extremely uncertain as a result significant shocks to the UK economy with high inflation, high borrowing costs, and a challenging labour market. Housing associations will need to maintain a close watch on various sources of risk including;

- access to labour and skills
- · increasing inflation and declining household income
- 7% (below inflation) rent cap
- diversification
- data and cyber security and
- health and safety.

It is also crucial that Boards have a strategic approach to managing trade-offs between competing demands from various stakeholders.

Whilst not an exhaustive list by any means, we have highlighted some of the sector risks from the Regulator's report and how these may impact the principal risks and uncertainties reporting in the annual report:

- Macroeconomic risk the UK economy has been subject to severe shocks in recent years which manifest
  as high inflation, a tight labour market and high interest rates, which in turn have driven up costs and
  contributed to housing market decline. Rent increases for 2023/4 have been capped at below inflation
  and increases for 2025/6 have not yet been announced. Individual tenants are facing cost of living
  issues and seeing a real term decrease in their income, which has a knock-on effect for the sector. In
  this challenging environment, it is essential that Boards continue to set a clear strategic direction for
  their organisations. The period may mean there are difficult trade-offs, and Boards will need to consider
  these carefully to maintain viability while prioritising essential services and safety. Decision making
  should be clear, transparent and well-informed.
- Diversification Diversifying into non-traditional areas of business can bolster turnover and supplement
  rent income. But this is not without risk and the main operations of housing can be put at risk if other
  areas of business are not managed properly. Examples of diversification in the sector include student
  accommodation, commercial property and specialist care. Boards must remember their commitment to
  providing value for money and ensure any diversifying is consistent with the overall risk profile and risk
  appetite of the organisation.
- Health and safety- this is a fundamental responsibility. Checks should be performed in a timely
  manner failure to proactively identify issues and deliver remedial safety action in a timely manner
  puts tenants at risk. A current issue facing the sector is the presence of RAAC (reinforced autoclaved
  aerated concrete) which is not thought to be widespread but does present issues where found. New fire
  and building law means that providers have to do more to demonstrate compliance. From October 2023
  the Building Safety Regulator has overseen and enforced the new more stringent regulatory regime for
  higher-risk buildings.
- Data and cyber security housing providers hold a wealth of data about tenants, staff and property. Cyber is a huge risk area and increasingly so in the not-for-profit sector. Providers must ensure that they have mitigations in place to protect data. There have been several high-profile instances of cyberattacks in the sector, and these have had serious consequences for providers' service delivery and resulted in substantial costs to rebuild and recover systems. Ransomware and extortion attacks have grown significantly in recent years, and the National Cyber Security Centre considers these to be the most acute cyber threat for most UK organisations. Compliance with data law is key but boards must ensure that they have contingency plans in place as well as a strong IT security function and robust systems and controls.

#### The NHF Code of governance 2020

A code of governance is most effective when entities embrace the principles, use guidance where relevant, and are transparent with their practices and reporting. There is value in taking ownership of governance within an organisation – taking disclosure of governance to a new dimension of transparency beyond "boiler-plate" reporting.

The updated NHF Code of Governance ('Code') was published in November 2020 and is the Code that is most commonly adopted in the sector. The Code was completely rewritten and is built around the key values that good governance is based on – accountability, integrity, openness, and equality, diversity and inclusion.

The Accounting Direction 2022 states " The code of governance that has been adopted by the PRP should also be disclosed."

The Code is simplified with four key principles each with a set of requirements with which organisations adopting the code must comply or give a reasoned explanation as to why they do not.

#### Getting ready for this year's reporting season

2022 was the first year that a statement of compliance with the new Code first appeared and this requirement remains applicable for 31 March 2024 year ends. Where the housing association is non-compliant with any of the requirements of the Code at the date of assessment, i.e. 31 March 2024, this must be explained in the annual report. The NHF Code of Governance provides additional guidance on compliance and some of the areas that housing associations may need to consider as part of year end reporting.

For example, there may be an alternative approach to the requirements set out in the Code which may be justified in a specific instance, if it results in stronger or more appropriate governance in the context of the particular association, and still supports compliance with the relevant overarching principle.

Likewise, some organisations may justify a commitment to achieving compliance with a particular requirement over a specified period of time because of the need to sustain good governance through a period of transition (for instance in matters of board renewal).

Departures from a requirement can be justified so long as there is evidence of proper consideration of why an exception is necessary and of how the relevant overarching principle is observed through other means.

#### Tenure and succession planning

We acknowledge that for many housing associations board members may still have been appointed with a nine-year term and hence will not meet the requirement set out in paragraph 3.7(3) of the Code which states that "Maximum tenure will normally be up to six consecutive years (typically comprising two terms of office), but where a member has served six years, and the board agrees that it is in the organisation's best interests, their tenure may be extended up to a maximum of nine years."

Further, as stated in the Code of Governance 2020 additional guidance<sup>5</sup>, "the flexibility to increase tenure for board members up to nine years can be used within the overall succession planning, to smooth the process for board retirements, especially if a number of members have already been on the board for six years or longer."

It will be up to each housing association to decide how best to achieve this new tenure term requirement and ensure stability on the board. Where housing associations are non-compliant with the new tenure term requirement as set out in paragraph 3.7(3), they will need to provide clear explanations for the non-compliance.

Overall, we expect there will be significantly detailed and specific explanations for many associations this year, setting out their succession planning taking into account in the best interests of the organisation.

#### Equality, Diversity and Inclusion (EDI) and reporting

The NHF Code 2020 requires housing associations to demonstrate a commitment to achieve equality, diversity and inclusion (EDI) in all of its organisational activities, as well as the board composition.

A clear commitment is needed from the board to ensure the organisational culture embeds EDI [Principle 3.2(2)] and the membership of boards and committees comprise people with diverse backgrounds and attributes, having regard to the diversity of the communities the Boards serve and in line with the board's EDI commitments. [Principle 3.4(3)].

In order to demonstrate this commitment, housing associations are required to develop policies, and set priorities and objectives to achieve. The Board should seek regular assurance about how those commitments and objectives are delivered in practice, and track progress against the priorities.

Principle 1.3(2) of the Code requires that "the organisation annually publishes information about its work to deliver these commitments and objectives, and the progress it has made." The expectation is for this information to be made publicly available, though the Code does not mandate whether it should be included, in the audited annual report or for instance on the housing association's website.

#### UK Code of Governance 2018

We note that though not very common in the sector, in our experience some associations, especially those which are public interest entities, often adopt the UK Corporate Governance Code 2018 ('UK Code'), as opposed to the NHF Code.

Those associations adopting the UK Code should be aware that there are additional requirements, such as the inclusion of a viability statement and additional requirements for their auditor to produce an enhanced auditor's report in accordance with International Standard of Auditing 700 (Revised January 2020) (UK), even if the UK Code is adopted voluntarily.

#### **Reporting on non-compliance**

Both the NHF Code and UK Code specify that that you must adopt all principles, however, where the organisation does not comply with one of the provisions, they should provide clear and meaningful explanations on any non-compliance. Such explanations will ensure that stakeholders can understand the rationale for any non-compliance and are able to judge whether they are content with the approach the organisation has taken.

### "Explanations are a positive opportunity to communicate, not an onerous obligation"<sup>6</sup>

There may be many good reasons why an organisation may choose not to comply, and an explanation does not imply poor governance, but in fact, provides transparency to its stakeholders.

#### Compliance with the Governance and Financial Viability Standard

All registered providers must undertake an assessment of their compliance with the Governance and Financial Viability Standard at least once a year and must certify compliance with the Standard during the course of the year and up to the signing of the accounts within the narrative report or explain why it has not been possible to comply with the Standard. Any non-compliance identified since the previous report should be explained.

When certifying compliance with the Governance and Financial Viability Standard, registered providers shall 'ensure that they consider compliance with regulatory standards in the round as set out in the required outcomes of the Standard.'

Any areas of non-compliance should be disclosed and explained.

The Regulator considers the reference to compliance with 'all relevant law'<sup>7</sup> in the Governance and Financial Viability Standard to encompass legislation (including secondary legislation), and common law. In ensuring compliance registered providers should have regard to relevant statutory guidance. To meet the required outcome on adherence to 'all relevant law', boards should take reasonable measures to assure themselves of their compliance.

As associations take on significant new risks in this evolving operating environment, compliance with all regulatory standards including 'all relevant laws' will require additional consideration especially with the upcoming fire safety and building regulations reforms as well as changes in consumer regulations.

#### The Housing Ombudsman Complaints Handling Code

#### Learning and improvement from resident complaints - reporting requirements

The Housing Ombudsman's Complaints Handling Code ('the Code') enables landlords to resolve complaints raised by their residents quickly and to use the learning from complaints to drive service improvements. It aims to help to create a positive complaint handling culture amongst landlord staff and residents.

Paragraph 7.2 of the Code requires landlords to disclose learning and improvement from complaints in the annual report. It is important that any such organisational learning and lessons learnt is included in the landlord's Annual Report.

We understand that the Housing Ombudsman clarified that the above reporting requirements are to be included in the Annual Reports for tenants, however the Housing Ombudsman also encourages housing associations to consider making this disclosure in their audited Annual Reports as well.

The Housing Ombudsman expects the learning and improvement to cover complaints that housing associations try and resolve both formally and informally. However, the Housing Ombudsman does not stipulate a standard system of complaint. It is for each individual housing association to find a system of learning which suits them best.

Housing associations should ensure that they are up to speed on the new requirements. We hope the above provides some helpful clarification on the reporting requirements of the Code as housing associations prepare for this year's annual reporting season.

#### Internal controls assurance - going beyond compliance

The SORP 2018 (paragraphs 4.11) requires boards of social landlords to conduct an annual review of the effectiveness of their system of internal control.

Whilst the SORP under paragraph 4.12 does not require a statement of internal control to be included within the report of the board, it is considered best practice to refer to the internal control processes in operation during the year within the annual report. During times of uncertainty there is greater focus on the effectiveness of the control environment from all stakeholders. We encourage boards to genuinely tailor this narrative rather than using bland uninformative template style wording.

#### Environmental, social and governance (ESG) reporting

It is inevitable that the government will place increasing expectations on the housing sector to take responsibility to reduce their carbon footprint, both in terms of the managing their existing stock but also the development of new homes. Thus, it is imperative for associations to start proactively planning for climate change proposals, before getting locked into financially unviable strategies and corporate plans.

Although most associations are not required to include environmental disclosures in their annual accounts (unless they fall in scope of Company Law requirements<sup>8</sup>), reporting on this area is becoming increasingly important for several stakeholders, especially lenders who are seeking to add sustainability-linked covenants and incentives in their product offerings. Further, as the urgency of addressing climate change is becoming ever more apparent, the public are looking towards all organisations, including housing associations, to lead the way in tackling the greatest challenge we may come across in our lifetime. Grant Thornton has produced a <u>summary</u> guide for not-for-profit organisations, to help them understand the applicable requirements.

The Sustainability Reporting Standard for Social Housing ('The SRS') was published in November 2020 by the ESG Social Housing Working Group which has since launched the Sustainability for Housing group.

The SRS is a voluntary reporting framework, which covers 48 criteria across ESG considerations such as affordability, safety standards and zero carbon targets. More than 100 housing associations and funders have adopted the standard.

We understand that as part of undertaking new debt financing, some lenders are requiring associations to adopt the SRS and include the reporting and disclosures in their annual accounts. It is important that associations are aware that such reporting will need to be clear, transparent and may be subject to additional audit scrutiny as part of auditing standards including ISA(UK) 720°.

The form of the reporting is not mandated in the SRS and it is expected that the reporting will not be part of the annual accounts of the housing association, unless required by lenders for example. Therefore, it is anticipated that the association will produce a standalone document, published on their website.

- 8 Large associations incorporated under the Companies Act 2006 may be in scope of the environmental and carbon reporting as set out in the Companies (Miscellaneous Reporting) Regulations 2018 and Streamlined Energy and Carbon Reporting (SECR) requirements.
- 9 FRC ISA (UK) 720 (Revised November 2019) The Auditor's Responsibilities Relating to Other Information

#### Climate related reporting

There are a number of environmental reporting frameworks. Some are mandatory, others voluntary. It is not always clear which frameworks, if any, apply to organisations, however. The list below highlights they key reporting frameworks:

- SECR Streamlined Energy and Carbon Reporting
- TCFD Task Force on Climate-Related Financial Disclosures
- TCFD aligned reporting
- S172
- Charity Information Sheet 5
- Charity governance code
- Sustainability reporting standard
- SCEF Standardised Carbon Emissions Framework

Housing associations that are registered as companies and are classed as large, may need to report under SECR, TCFD and produce a S172 statement. Housing Associations are encouraged to adopt the Sustainability Reporting Standard, but this is not mandatory.

Some not-for-profit organisations have begun to voluntarily include environmental disclosures in their annual reports. The UK has a target to achieve net zero by 2050 and the increase in reporting requirements in recent years suggests that this topic is being taken very seriously. NFP bodies should be encouraged to consider making disclosures in respect to the environment, even if they are not currently captured by the guidelines.

We encourage account preparers to review the Grant Thornton environmental reporting guide for not-for-profit entities, <u>here</u>.

### **Financial statements**

### Consolidated Statement of Comprehensive Income

		2024	2023
	Note	£'000	£'000
Turnover	3	124,865	108,432
Operating costs	3	(116,007)	(96,734)
Gain on disposal of housing properties	3	1,833	2,984
Other income	3	811	701
Operating surplus	5	11,502	15,383
Interest receivable	7	1,008	823
Interest and financing costs	8	(11,500)	(16,033)
Other finance income		34	65
Surplus before tax		1,044	238
Taxation	12	(52)	43
Surplus for the year		992	195
Unrealised (loss)/gain on housing properties at revaluation <sup>10</sup>		-	-
Actuarial gain in respect of pension schemes	26	7,160	3,892
Deferred taxation on the above	27	387	311
Total comprehensive income for the year		8,539	4,398

This disclosure may be required where the revaluation model is applied to housing properties in line with paragraph 8.27 of the Housing SORP 2018

The consolidated results relate wholly to continuing activities. The accompanying notes form part of these financial statements. The financial statements were authorised and approved by the Board on 1 July 2024.

Richard Giles Chairman **Peter Smith** Board member Abigail James Secretary

10 This disclosure may be required where the revaluation model is applied to housing properties in line with paragraph 8.27 of the Housing SORP 2018

### Association Statement of Comprehensive Income

Note, providers registered under the Companies Act 2006 are able to take an exemption under section 408 from publishing a separate Statement of Comprehensive Income (SoCI) for the Association. However, under the Co-operative and Community Benefit Society (CCBS) Act 2014, all registered providers must publish a separate SOCI for the Association.

		2024	2023
	Note	£'000	£'000
Turnover	3	90,107	83,277
Operating costs	3	(82,944)	(72,016)
Gain on disposal of housing properties		1,600	2,784
Other income	3	1,701	1,513
Operating surplus	5	10,464	15,558
Interest receivable	7	556	402
Interest and financing costs	8	(10,954)	(15,888)
Other finance (costs) / income		31	15
Surplus before tax		97	87
Taxation	12	-	-
Surplus for the year		97	87
Unrealised (loss)/gain on housing properties at revaluation <sup>11</sup>		-	-
Actuarial gain in respect of pension schemes	26	7,160	3,892
Deferred taxation on the above	27	387	311
Total comprehensive income for the year		7,644	4,290

The association's results relate wholly to continuing activities. The accompanying notes form part of these financial statements. The financial statements were authorised and approved by the Board on 1 July 2024.

Richard Giles Chairman Peter Smith Board member Abigail James Secretary

### Notes on the Statement of Comprehensive Income

#### Format of the Statement of Comprehensive Income

The layout of the statement is in accordance with the Appendix of the SORP 2018.

Associations may include additional lines where necessary, for example if there is a material transaction that should be presented on the face of the Statement of Comprehensive Income (SoCI) to show a true and fair view.

The SORP is specific in requiring that the statement of comprehensive income be presented as one, not two statements (which is an option under FRS 102.3.17(b)). Items below surplus/deficit for the year are 'other comprehensive income'. These will include any revaluation of assets held at valuation and any actuarial gains or losses on defined benefit pension schemes.

For the purposes of the Companies Act and the CCBS Act, the SoCI meets the requirements of a profit and loss account/a revenue account.

#### Gain/(loss) on disposal of fixed assets

Paragraph 5.9B of FRS 102 requires that if an entity elects to disclose 'operating profit' the entity should ensure that the amount disclosed is representative of activities that would normally be regarded as 'operating'. For example, it would be inappropriate to exclude items clearly related to operations (such as inventory write-downs, profits or losses on the sale of property, plant and equipment (including housing properties), investment property and intangible assets, and restructuring and relocation expenses) because they occur irregularly or infrequently or are unusual in amount.

Profits or losses on the disposal of a discontinued operation shall be excluded from operating profit.

The Appendix of the SORP and these model accounts reflects the above requirements, where relevant. In these example model accounts, the gain on the sale of the fixed assets has been shown separately on the face of the SoCl.

#### Signatories

If the entity is a Registered Charity, SoCI account should be signed on behalf of the board by a trustee of the charity.

If the entity is registered under the Co-operative and Community Benefit Society Act 2014 (CCBS Act), the secretary and two committee members must sign both the SoCI and the Statement of Financial Position (SoFP).

Please refer to the relevant notes to the accounts for further detail on each line item.

### Consolidated Statement of Changes in Reserves

	Income and expenditure reserve £'000	Restricted reserve £'000	Revaluation reserve* £'000	Total £'000
Balance as at 1 April 2022	133,584	12	27,525	161,121
Surplus for the year	195	-	-	195
Other comprehensive income for the year	4,203	-	-	4,203
Transfer from revaluation reserve to income and expenditure reserves	79	-	(79)	-
Transfer of restricted expenditure from unrestricted reserve	-	-	-	-
Balance at 31 March 2023	138,061	12	27,446	165,519
Surplus for the year	992	-	-	992
Other comprehensive income for the year	7,547	-	-	7,547
Transfer from revaluation reserve to income and expenditure reserves	123	-	(123)	-
Transfer of restricted expenditure from unrestricted reserve	-	-	-	-
Balance at 31 March 2024	146,723	12	27,323	174,058

The accompanying notes form part of these financial statements.

\* A revaluation reserve is required if the 'deemed cost' transitional relief was taken on transition to FRS 102 or properties are held at revaluation. However, providers can do a reserve transfer to release an amount equivalent to the excess depreciation being charged over the historic cost base to the revaluation reserve.

Where a revaluation movement is recognised in income or expenditure (in accordance with paragraph 17.15E and 17.15F of FRS 102), the association should record a transfer from the income and expenditure reserve to the revaluation reserve, in accordance with SORP 8.29.

Note – The Statement of Changes in Reserves must show a two full years reconciliation, i.e. balance as at 1 April 2022 to balance as at 31 March 2024 in accordance with FRS 102.6.3.

### Association Statement of Changes in Reserves

	Income and Restricted		Revaluation	
	expenditure reserve £'000	reserve	reserve*	Total
	£ 000	£'000	£'000	£'000
Balance as at 1 April 2022	122,762	12	27,525	150,299
Surplus for the year	87	-	-	87
Other comprehensive income for the year	4,203	-	-	4,203
Transfer from revaluation reserve to income and expenditure reserves	79	-	(79)	-
Transfer of restricted expenditure from unrestricted reserve	-	-	-	-
Balance at 31 March 2023	127,131	12	27,446	154,589
Surplus for the year	97	-	-	97
Other comprehensive income for the year	7,547	-	-	7,547
Transfer from revaluation reserve to income and expenditure reserves	123	-	(123)	-
Transfer of restricted expenditure from unrestricted reserve	-	-	-	-
Balance at 31 March 2024	134,898	12	27,323	162,233

The accompanying notes form part of these financial statements.

\* A revaluation reserve is required if the 'deemed cost' transitional relief was taken on transition to FRS 102 or properties are held at revaluation. However, providers can do a reserve transfer to release an amount equivalent to the excess depreciation being charged over the historic cost base to the revaluation reserve.

Where a revaluation movement is recognised in income or expenditure (in accordance with paragraph 17.15E and 17.15F of FRS 102), the association should record a transfer from the income and expenditure reserve to the revaluation reserve, in accordance with SORP 8.29.

Note – The Statement of Changes in Reserves must show a two full years reconciliation, i.e. balance as at 1 April 2022 to balance as at 31 March 2024 in accordance with FRS 102.6.3.

### Group and Association Statement of Financial Position

The layout of the statement below is in accordance with Appendix of the SORP 2018. Not all headings have been included. Associations may include additional lines where necessary to show a true and fair view. The terminology used is in line with SORP 2018 and Company Law, and although it differs in some places from FRS 102, this is acceptable under the flexibilities allowed within the Financial Reporting Standard. Please refer to the relevant notes to the accounts for further detail on each line item.

The accompanying notes form part of these financial statements.

The financial statements were issued and approved by the Board on 1 July 2024

In the case of a company, the SoFP should be signed by a member of the board.

Where the company is a Registered Charity the SoFP should be signed by a trustee of the charity. The registered company number should be shown on the Directors' Report, Auditor's Report or SoFP (Companies Act 2006). In the case of a CCBS Act entity, the secretary and two committee members are required to sign the SoFP.

For companies that have elected to take the exemption from presenting a company only SoCl under s408, they are required to include the company's own profit or loss in the year on the face of the individual balance sheet rather than including this in the notes, as was the previous practice, in accordance with SI 2015/980.

Richard Giles Chairman Affordable Housing Provider Limited (Company number: 1140880)

### Consolidated Statement of Cash Flows

	Note	2024 £'000	2023 £'000
Net cash generated from operating activities	29	28,709	31,411
Cash flow from investing activities			
Purchase and refurbishment of tangible fixed assets – housing properties		(41,889)	(29,914)
Purchase of other tangible fixed assets		(1,597)	(9,080)
Proceeds from sale of tangible fixed assets		11,970	13,390
Grants received		1,500	777
Interest received		1,008	823
Corporation tax paid		(52)	(43)
		(29,060)	(24,047)
Cash flow from financing activities			
Interest paid		(11,500)	(16,033)
Repayment of obligations under finance leases		(393)	(100)
New secured loans		7,042	8,755
Repayments of borrowings		3,173	2,501
		(1,678)	(4,877)
Net change in cash and cash equivalents *		(2,029)	2,487
Foreign exchange translation adjustment		(78)	(1,975)
Cash and cash equivalents at beginning of the year *		10,829	10,317
Cash and cash equivalents at end of the year *		8,722	10,829

The accompanying notes form part of these financial statements.

\* Registered Providers are required to reconcile the components of cash and cash equivalents to the Statement of Financial Position unless the amounts are identical to the amount presented thereon, as required by FRS 102.7.20.

FRS 102.7.22 Net debt reconciliation - Both FRS 102 and Housing SORP 2018 requires all entities to produce a net debt reconciliation note. This has been included within Note 29a of the financial statements.

## Notes to the financial statements

#### 1 Legal status and principal activities

#### **Registered under the Companies Act 2006**

The association is registered under the Companies Act 2006 and is a registered provider of social housing.

or

#### Registered under the Cooperative and Community Benefit Society Act 2014

The association is registered under the Cooperative and Community Benefit Society Act 2014 and is a registered provider of social housing.

Per **SORP 5.6** the statement on legal status must comment on all entities in the group as well as the legal and commercial relationships between all entities in the group, whether or not the entities are registered social housing providers.

**FRS 102.3.24(b)** requires the disclosure of an entity's principal activities and nature of operations (despite no longer being a disclosure requirement in the directors' report following changes to company law). If, however, an entity does disclose this information elsewhere in their Report from the Board, then it need not be repeated here.

The Affordable Housing Provider (AHP) has three subsidiaries; New Housing Limited and Friends Housing Association Limited are both registered under the Companies Act and are registered providers of social housing. The third subsidiary, AHP Limited is a registered company which develops new housing for sale to the group and to other registered providers.

#### 2 Accounting policies

#### **Basis of accounting**

The financial statements of the group and association are prepared in accordance with UK Generally Accepted Accounting Practice (UK GAAP) including Financial Reporting Standard 102 (FRS 102) and the Housing SORP 2018: Statement of Recommended Practice for Registered Social Housing Providers and comply with the Accounting Direction for Private Registered Providers of Social Housing 2022.

**FRS 102.3.3** requires an entity whose financial statements comply with FRS 102 to make an explicit and unreserved statement of such compliance in the notes to the financial statements.

Paragraph 17 in Part 2 of the Accounting Direction 2022 requires the following:

'The basis and standards under which the accounts have been prepared. Particulars of and reasons for any material departures from those should be stated.'

AHP is a public benefit entity in accordance with FRS 102.

The financial statements are presented in Sterling (£).

#### **Disclosure exemptions**

Refer to FRS 102.1.11-1.12 for details of disclosure exemptions applied here.

#### **Disclosure exemptions**

The individual accounts of AHP have adopted the following disclosure exemptions:

- the requirement to present an individual statement of cash flows and related notes
- financial instrument disclosures, including:
- categories of financial instruments,
- items of income, expenses, gains or losses relating to financial instruments, and
- exposure to and management of financial risks.

#### **Going concern**

The group's business activities, its current financial position, and factors likely to affect its future development are set out within the report from the board. The group has in place long-term debt facilities which provide adequate resources to finance committed reinvestment and development programmes, along with the group's day to day operations. The group also has a long-term business plan which shows that it is able to service these debt facilities whilst continuing to comply with lenders' covenants. As at 31 March 2024 the group had available cash balances of £8.7m and a further £35m of secured but undrawn loan facilities that could be drawn at short notice.

The board's assessment of going concern involves a number of subjective judgments including, but not limited to; [\*\*potential increased rent arrears, delayed rent collections, increased voids, increasing inflation and interest rates, a reduction in property prices and delays in property sales, predicted cash outflows from upcoming fire and building safety and costs associated with achieving energy efficiency homes \*\*]. In making their assessment the board have also considered the potential mitigations available to manage the potential impact on its cashflows and liquidity.

A wide-ranging multivariate stress test has been run on the business plan including the normal suite of scenarios that are tested regularly. The multivariate stress test includes the impact of sensitivities on the association's cash flow requirements, compliance with debt facilities, as well as covenant compliance. Mitigating actions, for instance, delays in non-essential expenditure, changes to the development programme, staff cost reductions or government support have been identified for all scenarios. This stress testing found that the business plan is robust and does not affect the group's ability to meet its obligations.

As part of the going concern assessment and conclusion, the continuing effects of Covid-19 has been considered in the association's forecasts and factored into the stress test carried out, including any mitigation actions that may be required.

On this basis, the board has a reasonable expectation that the group has adequate resources to continue in operational existence for the foreseeable future, being a period of at least twelve months after the date on which the report and financial statements are signed. The board have considered the foreseeable future for their going concern assessment to cover the period to 31 March 2026.

On this basis, the board continues to adopt the going concern basis in the financial statements.

#### Significant judgments and estimates

There are many accounting areas that require management to apply significant judgments and estimations when measuring and determining the carrying amounts of assets and liabilities to be reported in the financial statements.

As the disclosure of significant judgments and estimation uncertainty is required under FRS 102 and continues to be a key area of focus by the FRC, the transparency of disclosures in this area continues to be crucial for social housing as part of their year-end reporting.

In this regard, we highlight some key recommendations from the FRC's 2020/21 Annual Review of Corporate Reporting, which are equally relevant to housing associations reporting under FRS 102.

In respect of judgments, the focus should be on specific, material judgments made by directors in applying accounting policies. The FRC noted that good disclosure around significant judgments should make it clear:

- the reasons why the judgment was necessary;
- the entity-specific factors considered by management in applying the judgment; and
- the outcomes of applying the judgment.

In addition, the FRC noted that the significant judgment disclosed should be consistent with the estimation uncertainty disclosure and other disclosures elsewhere in the annual report.

The estimation uncertainty disclosures should be clear and specific, pinpointing the precise sources of uncertainty and avoiding the use of boilerplate language.

In this regard, the FRC continues to highlight the importance of meeting the following disclosure requirements;

- identifying the carrying amounts of assets and liabilities subject to significant estimation uncertainty within the next financial year;
- · disclosing any sensitivities or ranges of potential outcomes related to the estimation uncertainties; and
- disclosing the key assumptions underlying the measurement of assets and liabilities subject to significant estimation uncertainty within the next financial year, and as best practice, quantifying such assumptions if relevant.

#### FRS 102.8.6

An entity shall disclose the judgements, apart from those involving estimations that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

#### FRS 102.8.7

An entity shall disclose in the notes information about the key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. In respect of those assets and liabilities, the notes shall include details of:

- their nature, and
- their carrying amount as at the end of the reporting period.

The below are examples only. These statements will be very specific to each entity – an association may have more or fewer statements than this, which should be stated in turn, separately showing judgments and estimates. It is not considered sufficient to only cover these within individual accounting policies however the note below may cross refer more detailed information.

Each individual point should state the nature and carrying amount of the item concerned. It is unlikely that there are no significant judgments or estimates.

The following are the significant management judgments made in applying the accounting policies of the group that have the most significant effect on the financial statements.

#### Impairment

As part of the group's continuous review of the performance of their assets, management identify any impairment triggers which may affect any homes, or schemes. Such triggers include increasing void losses, government policy changes (such as welfare reform changes or rent reductions), any significant damage or repairs are required to any homes, failure to meet energy efficiency standards, or where the decision has been made to dispose of the properties. These factors are considered to be an indication of impairment. [\*\*List specific areas reviewed by your association and tailor according to your association's business model, tenure types and development schemes etc\*\*]

Where there is evidence of impairment, the recoverable amount of the fixed assets affected is determined and any impairment losses are charged to the statement of comprehensive income.

We estimated any impairment to the housing properties as follows:

- a Determined the level at which the recoverable amount is to be assessed (ie, the asset level or cash-generating unit (CGU) level). The CGU level was determined to be an individual scheme
- b Estimated the recoverable amount of the CGU
- c Calculated the carrying amount of the CGU and
- d Compared the carrying amount to the recoverable amount to determine if an impairment loss has occurred.

The recoverable amount is taken to be the higher of the fair value less costs to sell or the value in use of an asset or CGU. The assessment of value in use may involve considerations of the service potential of the assets or CGUs or the present value of future cash flows to be derived appropriately adjusted to account for any restrictions on their use. Where value in use - service potential (VIU-SP) is to be determined, the calculation of Depreciated Replacement Cost (DRC) is considered a suitable measurement model.

Based on this assessment, we calculated the DRC using appropriate construction costs and land prices of each social housing property scheme. In these circumstances we consider the DRC to be the recoverable amount.

Where the carrying amount is greater than the recoverable amount, an impairment loss of the difference between the two, is taken to the income and expenditure account and a corresponding entry is made to reduce the carrying value of the asset. An impairment charge has been made this year of £210k (2023: £430k).

#### **Estimation uncertainty**

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

#### Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date based on the expected utility of the assets including any components. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain software and IT equipment and changes to the Decent Homes Standards which may require more frequent replacement of key components. Accumulated depreciation of housing properties as at 31 March 2024 was £124,303k. The carrying amount of the housing properties was £680,560k at the year ended 31 March 2024.

#### **Defined benefit obligation**

Management's estimate of the defined benefit obligation is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the liability and the annual defined benefit expenses (as analysed in Note 26).

#### Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets including investment properties. This involves developing estimates and assumptions consistent with how market participants would price the instrument or asset. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices.

Fair value measurements were applied to one loan, which had options, in the year. The total value of this instrument was £87,650k at 31 March 2024.

Fair value measurements were applied to investment properties in the year. Refer to Note 16 for more details.

#### **Basis of consolidation**

The group accounts consolidate the accounts of the association and all its subsidiaries at 31 March using the purchase method.

The consolidated financial statements incorporate the financial statements of the association and entities (including special purpose entities) controlled by the group (and its subsidiaries). Control is achieved where the group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in total comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate, using accounting policies consistent with those of the parent. All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

#### Investment in subsidiaries

Investments in subsidiaries are accounted for at cost less impairment in the individual financial statements.

#### **Turnover and revenue recognition**

**Avoid the common pitfalls in your disclosures on income recognition policies:** The accounting policy for turnover and revenue recognition should include the relevant policies for all significant revenue streams, therefore, may need to be expanded based on the association's own circumstances.

Associations should consider whether any significant income from non-social housing letting income such as garages income needs to be disclosed. In some cases, we have noted that material PFI arrangements or Supporting Housing arrangements have been incorrectly omitted from the disclosures.

Turnover comprises rental income receivable in the year, service charge income, income from shared ownership first tranche sales, sales of properties built for sale, support services and other services included at the invoiced value (excluding VAT where recoverable) of goods and services supplied in the year and grants receivable in the year.

Rental income is recognised from the point when properties under development reach practical completion or otherwise become available for letting, net of any voids. Service charge income is recognised when service charge expenditure is incurred as this is the point at which the services have been performed.

Income from first tranche sales and sales of properties built for sale is recognised at the point of legal completion of the sale. Charges for support services funded under Supporting People are recognised as they fall due under the contractual arrangements with Administering Authorities.

#### **Gift Aid income**

Donations received under the Gift Aid scheme to the parent association, AHP, from its subsidiaries are recognised as turnover upon receipt as it relates to the principal activities of the association and is eliminated on consolidation.

#### Taxation

Current tax is recognised for the amount of income tax payable in respect of the taxable surplus for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

#### **Deferred taxation**

Deferred tax is recognised in respect of all timing differences at the reporting date, except as otherwise indicated.

Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

If and when all conditions for retaining tax allowances for the cost of a fixed asset have been met, the deferred tax is reversed.

Deferred tax is recognised when income or expenses from a subsidiary or associate have been recognised, and will be assessed for tax in a future period, except where:

- the group is able to control the reversal of the timing difference; and
- it is probable that the timing difference will not reverse in the foreseeable future.

Deferred tax relating to investment property that is measured at fair value is measured using the tax rates and allowances that apply to the sale of the asset, except for investment property that has a limited useful life and is held in a business model whose objective is to consume substantially all of the economic benefits embodied in the property over time.

Deferred tax is calculated using the tax rates and laws that that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference. Deferred tax is measured on an undiscounted basis.

With the exception of changes arising on the initial recognition of a business combination, the tax expense (income) is presented either in income and expenditure, other comprehensive income or reserves depending on the transaction that resulted in the tax expense (income).

Deferred tax liabilities are presented within provisions for liabilities and deferred tax assets within debtors. Deferred tax assets and deferred tax liabilities are offset only if:

- the group has a legally enforceable right to set off current tax assets against current tax liabilities, and
- the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority
  on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities
  and assets on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### **Value Added Tax**

The group is partially exempt in relation to Value Added Tax (VAT), and accordingly is able to recover from HM Revenue & Customs part of the VAT incurred on expenditure. At the year-end VAT recoverable or payable is included in the statement of financial position. Irrecoverable VAT is accounted for in the statement of comprehensive income.

#### **Interest payable**

Interest is capitalised on borrowings related to the development of qualifying assets, to the extent that it accrues in respect of the period of development if it represents interest on borrowings specifically financing the development programme after deduction of related grants received in advance.

Other interest payable is charged to income and expenditure in the year.

#### **HomeBuy Loans**

HomeBuy loans are treated as concessionary loans. They are initially recognised as a loan at the amount paid to the purchaser and are subsequently updated to reflect accrued interest and any impairment loss is recognised in income and expenditure to the extent that it cannot be offset against the HomeBuy grant. The associated HomeBuy grant is recognised as deferred income until the loan is redeemed.

#### **Financial instruments**

**SORP 6.2** There is an accounting policy choice available within paragraph 11.2 of FRS 102, Basic Financial Instruments, which states that a social landlord must apply either:

- FRS 102 Section 11 and Section 12 in full; or
- The recognition and measurement requirements of IAS 39, Financial instruments: Recognition and measurement (as adopted by the EU), and the presentation and disclosure requirements of Sections 11 and 12 in FRS 102; or
- The recognition and measurement provisions of IFRS 9, Financial Instruments and/or IAS 39 (as amended following the publication of IFRS 9) and the presentation and disclosure requirements of Sections 11 and 12 of FRS 102.

The disclosures below assumes that FRS 102 Section 11 and 12 are being applied.

#### **IBOR Reform**

Interest rate benchmarks such as the London Interbank Offered Rate (LIBOR) are being reformed, and LIBOR as we knew it is no longer available as of 31 December 2021. LIBOR, has now been replaced with the Sterling Overnight Interbank Average Rate (SONIA) from 31 December 2021. SONIA is the effective overnight interest rate paid by banks for unsecured transactions in the British Sterling market.

The FRC made amendments to FRS 102 to cope with the interest rate benchmark reform in two phases.

The Phase 2 amendments (effective from 1 January 2021) provides a practical expedient in Section 11.20C for changes in financial assets or liabilities as a direct result of the interest rate benchmark reform. This means that when changes to the contract are a direct consequence of IBOR reform on an economically equivalent basis, then FRS 102.11.19 applies meaning there is no immediate gain or loss arising. However, if there are other changes made to the financial instrument contract at the same time, that are not directly due to IBOR reform, those changes would need to be considered under other guidance under Sections 11 and 12 of FRS 102.

#### **ESG** Loans

Although ESG loans are only starting to appear in the credit market for the housing sector, they are likely to become common place in the near future. An ESG loan typically gives a return on the basis of a benchmark interest plus a margin. The margin is tied to the borrower's achievement of predetermined sustainability targets, and as a result the margin in the contract is dependent on whether those targets are met. Despite the variability in return, the loan may still meet the requirements for classification as a basic financial instrument under FRS 102, provided that all the requirements in FRS 102.11.9 are met. As part of this assessment, if the margin changes in accordance with ESG features, it would need to assess whether the change is consistent with FRS 102.11.9(aB) as described above. In the case of an ESG loan, the variability in return is contingent on the borrower's ESG performance, which would not necessarily be considered to be linked to credit risk, although in some cases a credit risk linkage may exist, depending on the terms and conditions of the loan.

If a housing association is party to an ESG loan, a detailed analysis of its terms and conditions would be required to assess whether the loan should be classified as basic or non-basic financial instrument under FRS 102. Early engagement with your auditors and advisors is recommended.

Financial instruments which meet the criteria of a basic financial instrument as defined in Section 11 of FRS 102 are accounted for under an amortised cost model.

Non-basic financial instruments are recognised at fair value using a valuation technique with any gains or losses being reported in surplus or deficit. At each year end, the instruments are revalued to fair value, with the movements posted to the income and expenditure (unless hedge accounting is applied).

The group and association have not adopted hedge accounting for the financial instruments.

#### Debtors

Short term debtors are measured at transaction price, less any impairment. Where deferral of payment terms has been agreed and the impact of discounting is material, the balance is shown at the present value, discounted at a market rate.

Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

#### Creditors

Short term trade creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

#### Sinking funds - service charges

The group operates both fixed and variable service charges on a scheme-by-scheme basis. Service charges on all schemes are set on the basis of budgets. Where variable service charges are used the budget will include an allowance for the surplus or deficit from prior years, with a surplus being returned to residents in the form of a reduced charge for the year and a deficit being recovered via a higher service charge. Charges made to leaseholders for the replacement of equipment and repairs within their estates are held in sinking funds which are ring-fenced for use on those estates. Such sinking funds are disclosed on the balance sheet as creditors.

#### **Employee Benefits**

Short-term employee benefits and contributions to defined contribution plans are recognised as an expense in the period in which they are incurred.

#### Pensions

The group participates in two funded multi-employer defined benefit schemes, the Social Housing Pension Scheme (SHPS) and the Midshire County Council Pension Fund (MCCPF).

#### Social Housing Pension Scheme (SHPS)

For the SHPS, the association has been able to identify its share of the scheme assets and scheme liabilities from 1 April 2018 and has applied defined benefit accounting from this date onwards.

The scheme assets are measured at fair value. Scheme liabilities are measured on an actuarial basis using the projected unit credit method and are discounted at appropriate high quality corporate bond rates. The net surplus or deficit is presented separately from other net assets on the statement of financial position. This has been recognised within the defined benefit pension liability on the face of the statement of financial position. As at the year ended 31 March 2024, the net defined benefit pension deficit liability was £16,292k (2023: £12,191k).

The current service cost and costs from settlements and curtailments are charged against operating surplus. Past service costs are recognised in the current reporting period within the income and expenditure account. Interest is calculated on the net defined benefit liability. Remeasurements are reported in other comprehensive income. Refer to Note 26 for more details.

#### Midshire County Council Pension Fund (MCCPF)

For the MCCPF, the association is able to identify its share of the scheme assets and scheme liabilities, the scheme assets are measured at fair value. Scheme liabilities are measured on an actuarial basis using the projected unit credit method and are discounted at appropriate high quality corporate bond rates. The net surplus or deficit is presented separately from other net assets on the statement of financial position. This has been recognised within the defined benefit pension liability on the face of the statement of financial position. A net surplus is recognised only to the extent that it is recoverable by the group through reduced contributions or through refunds from the plan.

As at the year ended 31 March 2024, the net defined benefit pension deficit liability was £14,198k (2023:  $\pounds$ 11,745k).

The current service cost and costs from settlements and curtailments are charged against operating surplus. Past service costs are recognised in the current reporting period within the income and expenditure account. Interest is calculated on the net defined benefit liability. Remeasurements are reported in other comprehensive income. Refer to Note 26 for more details.

#### **Housing properties**

\*Depending on which basis (cost or revaluation) has been used, associations will need to tailor accordingly

#### **Properties held at revaluation\***

Housing properties are properties held for the provision of social housing or to otherwise provide social benefit. Housing properties are principally properties available for rent and are stated at valuation.

Completed housing and shared ownership properties are stated at fair value at the date of valuation, less subsequent accumulated depreciation and accumulated impairment losses. Revaluations are made with sufficient regularity to ensure that the carrying amount does not materially differ from the fair value of the properties as at the year end.

#### **Properties held at cost\***

Housing properties are properties held for the provision of social housing or to otherwise provide social benefit. Housing properties are principally properties available for rent and are stated at cost less accumulated depreciation and impairment losses. Cost includes the cost of acquiring land and buildings, development costs, interest charges incurred during the development period.

Works to existing properties which replace a component that has been treated separately for depreciation purposes, along with those works that result in an increase in net rental income over the lives of the properties, thereby enhancing the economic benefits of the assets, are capitalised as improvements.

**SORP 8.31** requires that shared ownership properties, including those under construction, should be split between fixed assets and current assets. The split should be determined by the percentage of the property to be sold under a first tranche disposal which should be shown on initial recognition as a current asset, with the remainder classified as a fixed asset within the social landlord's property, plant and equipment (fixed assets) in the Statement of Financial Position.

Expenditure on shared ownership properties is split proportionally between current and fixed assets based on the element relating to expected first tranche sales. The first tranche proportion is classed as a current asset and related sales proceeds included in turnover, and the remaining element is classed as fixed asset and included in housing properties at cost, less any provisions needed for depreciation or impairment.

#### **Donated land and other assets**

**SORP 13.24** states that where a social landlord receives a donation of land and/or other asset or acquires land and/or other asset at below its market value from a government source, for example, a local authority, this is considered by the SORP to be in substance a non-monetary government grant.

Land and other assets donated by local authorities and other government sources are recognised at the fair value on initial recognition, at the time of the donation. Where the land is not related to a specific development and is donated by a public body an amount equivalent to the difference between fair value and consideration paid is treated as a non-monetary government grant and recognised on the statement of financial position as deferred income within liabilities. Where the donation is from a non-public source, the value of the donation is included as income.

On disposal of an asset for which non-monetary government grant was received by the social landlord any unamortised grant remaining within liabilities in the statement of financial position is derecognised and recognised as income in the statement of comprehensive income.

#### **Investment properties**

Investment properties consist of commercial properties and other properties not held for the social benefit or for use in the business. Investment properties are measured at cost on initial recognition and subsequently at fair value as at the year end, with changes in fair value recognised in income and expenditure.

#### Investment property rented to group entity - SORP 8.3 and FRS 102 16.4A

An entity that rents investment property to another group entity shall account for those properties either:

- at fair value with changes in fair value recognised in profit or loss; or
- by transferring them to property, plant and equipment and applying the cost model in accordance with Section 17 of FRS 102

These model accounts do not contain any investment properties rented to a group member.

#### **Government grants**

#### Housing properties and government grant accounting

Associations which account for their housing properties at cost must recognise government grants using the accrual model set out in paragraphs 13.15 to 13.21 of the SORP. Grants relating to assets must be recognised in income on a systematic basis over the expected useful life of the asset. Government grants received for housing properties should be recognised in income either:

- over the expected useful life of the housing property structure (but not the land), even if the fair value of the grant exceeds the carrying value of the structure in the financial statements or
- over the useful life of the housing property structure and its individual components (excluding land) on a pro rata basis.

Note, where the group took advantage of transitional relief for deemed cost and treated all grant on transition under the performance model with subsequent grants under the accruals model, this fact must be highlighted in the accounting policies. (SORP 19.6)

Note, associations which account for their housing properties at valuation must recognise government grants using the performance model. (SORP 13.7)

\*Depending on which basis has been used for housing properties, associations will need to tailor the grant accounting policy wording below accordingly.

Government grants include grants receivable from Homes England, local authorities, and other government organisations. Government grants received for housing properties are recognised in income over the useful life of the housing property structure and, where applicable, its individual components (excluding land) under the accruals model.\*

Grants relating to revenue are recognised in income and expenditure over the same period as the expenditure to which they relate once reasonable assurance has been gained that the entity will comply with the conditions and that the funds will be received.

Grants due from government organisations or received in advance are included as current assets or liabilities.

Government grants received for housing properties are subordinated to the repayment of loans by agreement with the Homes England. Government grants released on sale of a property may be repayable but are normally available to be recycled and are credited to a Recycled Capital Grant Fund and included in the statement of financial position in creditors.

If there is no requirement to recycle or repay the grant on disposal of the asset, any unamortised grant remaining within creditors is released and recognised as income in income and expenditure.

Where individual components are disposed of and this does not create a relevant event for recycling purposes, any grant which has been allocated to the component is released to income and expenditure.

#### **Other grants**

Grants received from non-government sources are recognised using the performance model. A grant which does not impose specified future performance conditions is recognised as revenue when the grant proceeds are received or receivable. A grant that imposes specified future performance-related conditions on the association is recognised only when these conditions are met. A grant received before the revenue recognition criteria are satisfied is recognised as deferred income.

#### **Depreciation of housing properties**

**SORP 8.16** requires that if major components of an item of property, plant and equipment (fixed assets) have significantly different patterns of consumption of economic benefits, an entity must allocate the initial cost of the asset to its major components and depreciate each such component separately over its useful life. A housing property will always comprise a number of major components with substantively different patterns of consumption of economic benefits and therefore each major component must be recognised and depreciated over its individual economic life.

The group separately identifies the major components which comprise its housing properties, and charges depreciation, so as to write-down the cost of each component to its estimated residual value, on a straight-line basis, over its estimated useful economic life.

The group depreciates the major components of its housing properties at the following annual rates:

Structure	1%-2%
Roofs	2%
Kitchens	5%
Bathrooms	3%
Windows and doors	4%
Mechanical systems (heating, plumbing, ventilation)	3%

Freehold land is not depreciated. Leasehold properties are amortised over the life of the lease or their estimated useful economic lives in the business, if shorter.

#### Impairment

**SORP 14.12** requires that associations must determine the level at which an impairment is to be assessed (i.e. at asset or cash-generating unit level) before performing the impairment review. A cash-generating unit is defined as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The accounting policy below describes an impairment review performed at the asset level.

Housing properties are assessed annually for impairment indicators. Where indicators are identified, an assessment for impairment is undertaken comparing the scheme's carrying amount to its recoverable amount. Where the carrying amount of a scheme is deemed to exceed its recoverable amount, the scheme is written down to its recoverable amount. The resulting impairment loss is recognised as operating expenditure. Where a scheme is currently deemed not to be providing service potential to the association, its recoverable amount is its fair value less costs to sell.

#### Other tangible fixed assets

Other tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is provided evenly on the cost of other tangible fixed assets to write them down to their estimated residual values over their expected useful lives. No depreciation is provided on freehold land.

The principal annual rates used for other assets are:

Freehold buildings	2%
Long leasehold property	Over life of lease
Furniture, fixtures and fittings	10%
Computers and office equipment	20%
Motor vehicles	20%

Gains or losses arising on the disposal of other tangible fixed assets are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised as part of the operating surplus/deficit for the year.

#### Intangible assets

Computer software is carried at cost less accumulated amortisation and impairment losses. Costs associated with maintaining computer software are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the group are recognised as intangible assets when the criteria as follows is met:

- it is technically feasible to complete the software so that it will be available for use;
- management intends to complete the software and use or sell it;
- there is an ability to use or sell the software;
- it can be demonstrated how the software will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the software are available; and the expenditure attributable to the software during its development can be reliably measured.

Amortisation is charged on a straight-line basis over the expected useful life of the software. The expected useful life is considered to be three years. The computer software is reviewed for impairment where there are triggers such as technological advancement or changes in market price, that indicate that the carrying amount may be impaired.

#### Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the leased asset to the group. All other leases are classified as operating leases.

Assets held under finance leases are recognised initially at the fair value of the leased asset (or, if lower, the present value of minimum lease payments) at the inception of the lease. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation using the effective interest method so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are deducted in measuring the surplus or deficit. Assets held under finance leases are included in tangible fixed assets and depreciated and assessed for impairment losses in the same way as owned assets.

Rentals payable under operating leases are charged to income and expenditure on a straight-line basis over the lease term, unless the rental payments are structured to increase in line with expected general inflation, in which case the group recognises annual rent expense equal to amounts owed to the lessor.

The aggregate benefit of lease incentives is recognised as a reduction to the expense recognised over the lease term on a straight-line basis.

#### Stock

Shared ownership first tranche sales completed properties for outright sale, and property under construction are valued at the at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises materials, direct labour and direct development overheads.

#### **Provisions for liabilities**

Provisions are recognised when the group has a present obligation (legal or constructive) as a result of a past event, it is probable that the group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

Where the effect of the time value of money is material, the amount expected to be required to settle the obligation is recognised at present value using a pre-tax discount rate. The unwinding of the discount is recognised as a finance cost in the income and expenditure account in the period it arises.

#### Reserves

The group establishes restricted reserves for specific purposes where their use is subject to external restrictions.

**SORP 18.3** requires designated reserves are deemed an internal matter and should not be presented on the face of the primary statements. Commentary in the notes with reference to internal designations is allowed.

Entities that are registered charities should also consider the reserves reporting requirements as set out in the Charity Commission guidance; 'CC19 charity reserves: building resilience.'

#### **Revaluation reserve**

A revaluation reserve is required if the 'deemed cost' transitional relief was taken on adoption of FRS 102 or where a policy of revaluation has been adopted.

The difference on transition between the fair value of social housing properties and the historical cost carrying value is credited to the revaluation reserve. The difference between historical cost depreciation and depreciation charged on the fair value balance should is transferred from the revaluation reserve to the income and expenditure reserve.

# 3 Particulars of turnover, cost of sales, operating costs and operating surplus

#### Accounting Direction 2022 Part 1

Material items of social housing activity should be separately identified.

Where material sums are involved, additional analysis should be provided.

Please note that Accounting Direction 2022 has clarified the distinction between "social housing lettings" and "other social activities", for purpose of segment reporting of the social housing activity by those two categories. Definitions for both categories can be found in the Glossary section of Accounting Direction 2022. Note, included within operating surplus is the gain/loss on disposal of social housing properties. This line needs to be included where properties have been disposed of in the ordinary course of the operating activities. Other items such as gift aid and revaluation of investment properties may also be included within operating surplus. All items within operating surplus / (deficit) should be representative of activities that would normally be regarded as 'operating'.

As the definition of operating surplus / (deficit) may be considered a critical judgment under both SORP and FRS 102, housing associations would need to consider disclosing the judgment involved in determining which items are 'operating' in nature, if such judgment can make a significant difference to users' assessment of the associations' financial performance.

# 3a Particulars of income and expenditure from social housing lettings

**Note B** in the Accounting Direction shows General needs, Supported housing and housing for older people and other income categories as a minimum but additional columns can be added.

Group					2024	2023

Void losses	1,444	871	450	555	3,320	3,066

#### Note -

Particulars of turnover and operating expenditure from social housing lettings should be completed even in those cases where an operating segment disclosure is required by Housing SORP 2018 paragraph 3.8. Generally speaking, the IFRS 8 operating segment disclosure requirements will impact those associations with listed debt anywhere within the group structure.

Costs should be allocated to main headings as far as possible, or additional lines added for material areas of expenditure.

The RSH guidance for the Financial Viability Accounts (FVA) return (as set out in the RSH publication Regulating the Standards) can be used as a reference in respect of Note B.

Guidance is available through the documents and templates section of the NROSH+ data collection system: <u>https://nroshplus.</u> <u>regulatorofsocialhousing.org.uk/</u>.

### 3b Particulars of turnover from non-social housing lettings

	Group		Association	Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000	
Student accommodation	754	754	715	715	
Registered nursing homes	1,355	1,124	1,188	985	
	2,109	1,878	1,903	1,700	

# 4 Accommodation in management and development

#### Accounting direction Part 2 33-34

PRPs must provide a full analysis of the number of units of different types of social housing accommodation for both the start and end of year and explaining reasons for the movements between these dates. If accommodation of the PRP is managed on its behalf by another body, the number of units managed by other bodies should also be disclosed.

PRPs must provide a full analysis appropriate to their operating circumstances.

At the end of the year accommodation in management for each class of accommodation was:

Association	2024	2023
	No of properties	No of properties
Social housing		
General housing:		
social rent	6,991	6,887
affordable rent	3,990	3,980
shared ownership	1,000	987
Supported housing	350	340
Housing for older people	2,523	2,523
Low cost home ownership	620	608
Total owned	15,474	15,325
Accommodation managed for Small Housing Association Limited	230	270
Total owned and managed	15,704	15,595
Non-social housing		
Registered nursing homes	50	50
Total owned and managed	15,754	15,645
Accommodation in development at the year end	9	9

The group manages accommodation for Small Housing Association Limited, a registered social landlord operating in Wimbledon.

The group owns 40 supported housing units (2023: 35) that are managed on its behalf, under management agreements, by other bodies who contract with Supporting People Administering Authorities and carry the financial risk relating to the supported housing units.

Overall, there was an increase of 149 in owned properties and a decrease of 40 in managed properties. 149 new properties were developed during the year: 104 social rent, 10 affordable rent, 13 shared ownership, 10 Supported housing properties and 12 low-cost home ownership.

### 5 Operating surplus

The operating surplus is arrived at after charging/(crediting):

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Depreciation of housing properties	13,981	12,085	8,877	10,615
Impairment of housing properties	210	430	210	430
Depreciation of other tangible fixed assets	5,559	5,400	5,559	5,400
Surplus on disposal tangible fixed assets	1,833	2,984	1,600	2,784
Operating lease rentals				
land and buildings	155	150	155	150
office equipment and computers	21	12	21	12
Auditors' remuneration (excluding VAT)				
<ul> <li>Fees payable to the Association's auditors for the audit of the parent and Group financial statements</li> </ul>	68	65	68	65
Fees payable to the Association's auditors for other services:				
Audit of the accounts of subsidiaries	14	15	-	-
Tax compliance services	9	9	9	9
Total amount payable to Association's auditors	91	89	77	74

#### Auditor remuneration disclosures for companies

Under the Companies Act, specific disclosure is required to analyse the different elements of the audit fee between the categories as set out in SI 2008/489 (as amended by SI 2011/2198), which sets out the disclosure requirements in relation to auditor remuneration.

The Accounting Direction 2022 Part 2, paragraph 37-38 requires the amount of remuneration, exclusive of VAT, payable in the period of account including sums payable in respect of expenses, of the PRP's external auditors for the auditing of the accounts, including the basis of any apportionments of cost to the PRP, if applicable.

The amount of any remuneration, in relation to the period of account exclusive of VAT, including sums payable in respect of expenses, of the PRP's external auditors or their associates in respect of services other than those of auditing the accounts. 'Associate' has the same meaning as that set out in Schedule 1 of the Companies (Disclosure of Auditor Remuneration and Liability Limitation Agreements) Regulations 2008.

# 6 Surplus on sale of fixed assets - housing properties

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Disposal proceeds	11,970	13,390	11,645	13,287
Carrying value of fixed assets	(3,753)	(5,105)	(3,661)	(5,202)
	8,217	8,285	7,984	8,085
Capital grant recycled (note 24)	(6,384)	(5,301)	(6,384)	(5,301)
Total surplus on disposal of fixed assets	1,833	2,984	1,600	2,784

# 7 Interest receivable and other income

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Interest receivable and similar income	1,008	823	556	402
	1,008	823	556	402

# 8 Interest and financing costs

#### FRS 102 25.3A

Where a policy of capitalisation of borrowing costs is adopted, an entity shall disclose:

- a the amount of borrowing costs capitalised in the period, and
- b the capitalisation rate used

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Loans and bank overdrafts	11,005	14,565	10,129	15,323
Unwinding of discounts on NPV	678	828	988	693
Defined benefit pension charge	132	1,112	132	112
Finance leases	135	180	135	150
	11,950	16,685	11,384	16,378
Interest payable capitalised on housing properties under construction	(450)	(652)	(430)	(490)
	11,500	16,033	10,954	15,888
Capitalisation rate used to determine the finance costs capitalised during the period	4.60%	4.90%	4.60%	4.70%

#### **Finance costs**

If the association has balances held at present value based on discounted cash flows, the unwinding of the discount will need to be included as a finance cost.

### 9 Employees

#### Accounting Direction 2022 Part 2 34

'The average number of employees employed during the period of account expressed in full time equivalents, to be calculated on a basis disclosed by the PRP.'

	Group	Group		
	2024 No	2023 No	2024 No	2023 No
Administration	188	162	150	145
Development	90	91	85	87
Housing, support and care	410	403	200	198
	688	656	435	430

#### **Employee costs**

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Wages and salaries	22,578	20,004	21,995	19,206
Social security costs	1,995	1,667	1,803	1,544
Other pension costs	1,390	1,271	1,254	1,198
	25,963	22,942	25,052	21,948

The association's employees are members of the Midshire County Council Pension Fund (MCCPF) or of the Social Housing Pension Scheme (SHPS). Further information on each scheme is given in note 26.

The full time equivalent number of staff (this includes executive directors) who received remuneration (including employer pension contributions) greater than £60,000 (including the executive team):

	2024 No	2023 No
£60,001 to £70,000	7	6
	2	1
£80,001 to £90,000	2	4
£90,001 to £100,000	2	-
£100,001 to £110,000	1	1
£110,001 to £120,000	1	-

#### Accounting Direction Part 2 12

"The full time equivalent number of staff whose remuneration payable in relation to the period of account fell within in each band of £10,000 from £60,000 upwards. Remuneration should also include compensation for loss of office."

The Accounting Direction defines remuneration as 'payment receivable for services or employment and includes basic salary and any bonuses.' Full details of the definition are within Accounting Direction Part 2 14.

Note: This disclosure should include the number of staff who receive remuneration >  $\pm$ 60k. We recommend that the note makes it clear where these numbers include the executive team.

### 10 Board members and Executive Directors

#### **Accounting Direction Part 2 25**

Aggregate costs disclosed should separately identify amounts paid to non-executive members of the board of the PRP. If nonexecutive Board members are not remunerated, a statement should be made to this effect.

#### NHF Code of Governance 2020, paragraph 3.6

Organisations paying non-executive board members have an objective mechanism for setting payment levels. This will normally be the responsibility of a committee responsible for remuneration, using independent advice. Such payment is:

- Permitted by law and by the organisation's own constitution
- · Agreed by the board as being in the best interests of the organisation
- Aligned with the organisation's social purpose and wider reputation
- · Proportionate to the organisation's size, complexity, level of risk and resources
- · Linked to the role's responsibilities, against which performance is reviewed
- · Regularly reviewed, drawing on external advice as necessary
- Disclosed in the organisation's annual financial statements

Executive directors				2024	2023
	Basic salary £'000	Benefits in kind £'000	Pension contributions £'000	Total £'000	Total £'000
Chief Executive					
Tom Sheraton	101	6	25	132	122
Director of Finance					
Paula Large	78	5	20	103	90
Director of Development					
Ray Taylor	69	3	18	90	83
Director of Housing Services					
Alison Blake	76	7	14	97	92
	324	21	77	422	387

Non-executive directors	Remuneration £'000	Expenses £'000	2024 Total £'000	2023 Total £'000
Tom Morris – (Chair)	13	1	14	13
Benny Johnson	5	3	8	6
Matthew Cox	5	-	5	5
Priscilla Patel (Chair of Audit and Risk Committee)	6	1	7	6
	29	5	34	30

The total payments to Board and Committee members are reviewed annually, taking external independent advice where appropriate and in 2023/24 is represents less than 0.03% of Group turnover. Remuneration is based on sector benchmarking data for comparable sized associations.

The disclosure on individual directors on a named basis is a recommendation for transparency only – the specific requirements of the Accounting Direction and FRS 102 are both for aggregate disclosure only. Further under the Data Protection Act 2018 consent is required from the individual to disclose personal data about them in the accounts.

### 11 Key management personnel

**FRS 102 33.6** - Requires that the aggregate remuneration for those in the senior management team (or other team members who would be described as key management personnel) be disclosed. This should be the total employment cost incurred by the entity for this group, as defined by section 28 of FRS 102, therefore includes pensions and employers' NIC.

Separate disclosure from the remuneration of directors may be required as the amounts shown will be different for those entities reporting under the Companies Act, which defines emoluments as being amounts received by the individual, including benefits.

#### Accounting Direction Part 2 25 - 33 requires disclosure of:

Remuneration paid to key management personnel in relation to the period of account or, where no such remuneration are so payable, a statement to that effect. The aggregate amount disclosed should separately identify sums paid to non-executive Board members, where remunerated. If non-executive Board members are not remunerated, a statement should be made to this effect.

The aggregate amount of any compensation payable to directors or past directors in relation to the period of account in respect of loss of office (whether by retirement or otherwise).

The emoluments payable to the highest paid director excluding pension contributions.

Details of the nature of the chief executive's pension arrangements stating; the nature of the scheme and how it is funded, whether they are an ordinary member of the pension scheme, whether any enhanced or special terms apply and whether they have an individual pension arrangement to which the PRP or any subsidiary makes contribution, and if so, the aggregate amount of contributions made by the PRP and any subsidiary.

The aggregate amount of any consideration payable to or receivable by third parties in relation to the period of account for making available the services of any person to perform in the role of Director of the PRP, or (while a Director of the PRP) in connection with the management of the affairs of the PRP or the affairs of any subsidiary of the PRP.

#### Remuneration are amounts payable by the PRP or any of its subsidiaries including:

- · Wages and salaries including performance related pay
- fees and dividends
- expenses allowance (so far as chargeable to UK tax)
- pensions contributions
- termination benefits
- estimated monetary value of other benefit.

#### Participation of key management personnel in an entity-wide defined benefit scheme:

Section 33.7 of FRS 102 requires the disclosure of key management personnel compensation in total. Such disclosure would usually include the total cost of the defined benefit scheme for key management personnel, calculated in accordance with Section 28 of FRS 102.

When key management personnel participate in an entity-wide scheme together with other employees, it may not be practicable to calculate the total defined benefit cost attributable to key management personnel. An acceptable alternative in practice is to calculate an amount which includes:

- the current service cost attributable to key management personnel (calculated in accordance with Section 28 of FRS 102); and
- the value of change in benefits accrued in the scheme that could be transferred into another pension scheme, net of management's contributions (ie. a net change in "transfer value") if such information is available.

The aggregate remuneration for key management personnel, which includes the executive directors and other members of the senior management team, charged in the year is:

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Basic salary	872	785	705	671
Benefits in kind	34	32	28	32
Employers NIC	134	118	101	97
Pension contributions	100	94	91	83
	1,140	1,029	925	883

The Chief Executive is a member of the Social Housing Pension Scheme. He is an ordinary member of the pension scheme and no enhanced or special terms apply. The association does not make any further contribution to an individual pension arrangement for the Chief Executive.

During the year, the aggregate compensation for loss of office of key management personnel was £nil (2023: £nil).

**Directors' remuneration – Companies Act 2006 requirements:** Where an association is incorporated under the Companies Act 2006, additional disclosures may be required under Schedule 5 to SI 2008/410.

Additional disclosures for such companies include:

- amounts relating to the highest paid director if the aggregate amounts for directors' remuneration exceeds £200,000
- excess retirement benefits paid to directors or former directors

### 12 Tax on surplus on ordinary activities

#### FRS 102 29.27

The reconciliation between:

- the tax expense included in surplus or deficit; and
- the surplus or deficit on ordinary activities before tax multiplied by the applicable tax rate
- an explanation of changes in the applicable tax rate(s) compared with the previous reporting period.

	Group		Association	
	2024	2023	2024	2023
	£'000	£'000	£'000	£'000
Current tax				
UK corporation tax on surplus for the year	(10)	(8)	-	-
Adjustments in respect of prior years	-	-	-	-
Total current tax	(10)	(8)	-	-
Deferred tax				
Net origination and reversal of timing differences (note 27)	62	51	-	-
Total tax on results on ordinary activities	52	43	-	-

The tax assessed for the year is lower than the standard rate of corporation tax in the United Kingdom at 0.3% (2023: 0.6%). The differences are explained as follows:

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Total tax reconciliation				
Surplus on ordinary activities before tax	1,044	238	97	87
Theoretical tax at UK corporation tax rate 20% (2023: 20%)	209	48	19	17
Income not taxable	(114)	-	(17)	(12)
Charitable tax exemption	(45)	(5)	(2)	(5)
Non-deductible expenditure	2	-	-	-
Adjustments to tax in respect of prior periods	-	-	-	-
Total tax charge*	52	43	0	0

The aggregate deferred tax relating to items that are recognised as items of other comprehensive income is £387k (2023: £311k).

\* Note: Reconcile to total tax, i.e. including deferred tax.

In these model accounts, we have assumed UK corporation tax to be at 20% for illustrative purposes only. Associations should ensure that they check the correct UK corporation tax that is applicable to their entity's accounting period.

### 13 Intangible fixed assets

Released on disposal	(12)	-	-	(12)
At 31 March 2024	123,205	-	1,475	124,680
Net book value				
At 31 March 2024	661,020	29,014	8,417	698,451
At 31 March 2023	629,282	28,789	9,247	667,318

#### Valuation

Where properties are held at their revalued amounts, whether this is because the PRP has adopted a policy of revaluation, or took deemed cost on transition to FRS 102, the disclosures shown below must be included. This is in accordance with both FRS 102.17.32A and the Companies Act where applicable.

Completed housing properties are stated at Existing Use Value for Social Housing (EUV-SH), including notional directly attributable acquisition costs. As at 31 March 2024, the group's housing properties have been valued by WRH Churchill Chartered Surveyors, professional external valuers.

In valuing housing properties, discounted cash flow methodology was adopted with key assumptions:

Discount rate	4.5%
- Annual inflation rate, after first two years	2.0%
Level of long-term annual rent increase	2.0%

The carrying value of housing properties that would have been included in the financial statements had the assets been carried at historical cost less accumulated depreciation is as follows:

	2024 £'000	2023 £'000
Housing properties at historical cost	641,782	600,012
Accumulated depreciation	- (90,631)	(81,341)
	551,151	518,671

#### Expenditure on works to existing properties

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Improvement works capitalised	2,009	7,277	1,965	6,619
Components capitalised	39,880	22,637	38,324	21,502
Amounts charged to income and expenditure	27961	18,887	25,680	22,076
	69,850	48,801	65,969	50,197

#### Accounting Direction Part 2 21

PRPs should disclose the total accumulated amount of financial assistance and other government grant received or receivable at the reporting date. This includes social housing grant.

#### Social housing assistance

	Group		Association	
	2024	2023	2024	2023
	£'000	£'000	£'000	£'000
Total accumulated social housing grant received or receivable at 31 March:				
Recognised in the Statement of Comprehensive Income	4,077	3,176	4,077	3,176
Held as deferred income	165,871	170,054	165,871	170,054

#### **Finance costs**

	Group		Association		
	2024	2023	2024	2023	
	£'000	£'000	£'000	£'000	
Aggregate amount of finance costs included in the cost of housing properties	804	791	804	791	

#### Impairment

#### SORP 14.12

Associations must determine the level at which an impairment is to be assessed (i.e. at asset or cash-generating unit level) before performing the impairment review. A cash-generating unit is defined as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The group considers individual schemes to be separate Cash Generating Units (CGU's) when assessing for impairment, in accordance with the requirements of FRS 102 and SORP 2018. The recoverable amount is taken to be the higher of the fair value less costs to sell or the value in use of an asset or CGU. In making the assessment of the recoverable amount, the group considers that value in use which takes into account the service potential of the CGUs is appropriate. Where value in use - service potential (VIU-SP) is to be determined, the calculation of Depreciated Replacement Cost (DRC) is considered a suitable measurement model.

Based on this assessment, we calculated the DRC using appropriate construction costs and land prices of each social housing property scheme. In these circumstances we consider the DRC to be the recoverable amount. Where the carrying amount is greater than the recoverable amount, an impairment loss of the difference between the two, is taken to the income and expenditure account and a corresponding entry is made to reduce the carrying value of the asset. An impairment charge has been made this year of £210k (2023: £430k).

### 15 Tangible fixed assets - other

Group and association	Freehold offices £'000	Long leasehold property £'000	Computers and office equipment £'000	Furniture, fixtures and fittings £'000	Total housing properties £'000

At 31 March 2023	39,869	18,802	6,955	11,485	77,111

The net book value of other tangible fixed assets includes £17,168k (2023: £16,931k) in respect of assets under finance leases.

### 16 Investment properties non-social housing properties held for letting

#### FRS 102.16.10

An entity shall disclose the following for all investment property accounted for at fair value:

- a methods and significant assumptions applied in determining the fair value of the investment property
- b the extent to which the fair value is based on a valuation by a professional valuer
- c a reconciliation between the carrying amounts of investment property at the beginning and end of the period.

At 31 March	19,805	22,987
(Decrease)/Increase in value	(477)	147
Additions/(Disposals)	(2,705)	1,482
At 1 April	22,987	21,358
Group	2024 £'000	2023 £'000

Association	2024 £'000	2023 £'000
At 1 April	32,559	30,201
Additions/(Disposals)	(4,285)	2,065
(Decrease)/Increase in value	(1223)	293
At 31 March	27,051	32,559

Investment properties were valued as at 31 March 2024. The group's and association's investment properties have been valued by WRH Churchill Chartered Surveyors, professional external valuers. The full valuation of properties was undertaken in accordance with the Appraisal and Valuation Manual of the Royal Institute of Chartered Surveyors as follows:

In valuing investment properties, a discounted cash flow methodology was adopted with key assumptions:

Discount rate	4.5%
Annual inflation rate, after first two years	2.0%
Level of long-term annual rent increase	2.0%

## 17 HomeBuy loans

	2024	2023
Group and association	£'000	£'000
At 1 April	1,480	1,222
New loans issued	408	317
Redeemed in year	(306)	(36)
Loans provided against	(38)	(23)
At 31 March	1,544	1,480

These loans are secured on the properties and are to be repaid in line with the terms of the scheme. There is no interest charged in the first 5 years, then interest is charged at 1.75%.

### 18 Investments in subsidiaries

As required by FRS 102 and the Housing SORP, the financial statements consolidate the results of New Housing Limited, Friends Housing Association Limited and AHP Limited, which were wholly owned subsidiaries of the association at the end of the year. The association has the right to appoint members to the boards of the three subsidiaries and thereby exercises control over them.

New Housing Limited and Friends Housing Association are registered providers of social housing. AHP Limited, is a non-regulated registered company under the Companies Act 2006. The registered office is the same for all of the group entities. Affordable Housing Provider is the ultimate parent undertaking.

Net book amount at 31 March 2023	3,578

#### Accounting Direction 2022 2-3

PRPs must include an analysis of intra group transactions between registered and unregistered entities within a group, to demonstrate a transparency in the flow of funds and allocation of overheads. This includes transactions with associate, subsidiary or another group member which is not a PRP or an unregistered entity.

Disclosure should include:

- · description of any significant apportionment, recharge or allocation of turnover, costs, assets and liabilities,
- the aggregate turnover, costs, assets or liabilities which have been apportioned or allocated,
- · specifying which associates, subsidiaries or other group members have been involved in the apportionment or allocation,
- include any cross guarantees, debts between group entities or financial support made across group members.

During the year, the association recharged amounts to AHP Limited, an unregistered entity:

	2024 £'000	2023 £'000	Allocation basis
Management services	601	555	Percentage of payroll costs
 Recharge of rent on property	72	72	Square footage
	673	627	

The amounts owed by group undertakings as disclosed in Note 20 of £7,084k (2023: £5,462k) is with AHP Limited.

### 19 Stock

	2024	2023
Group and association	£'000	£'000
Shared ownership properties:		
Completed properties	807	186
Work in progress	2,804	1,548
Properties developed for outright sale	1,288	265
	4,899	1,999

### 20 Debtors

	Group		Association	
	2024	2023	2024	2023
	£'000	£'000	£'000	£'000
Due within one year				
Rent and service charges receivable*	2,845	2,703	2,809	2,672
Less: provision for bad and doubtful debts	(974)	(874)	(983)	(1177)
	1,871	1,829	1,826	1,495
Other debtors	2,551	3,148	2,993	2,690
Prepayments and accrued income	2,100	2,805	2,459	2,960
Amounts owed by group undertakings	-	-	7,084	5,462
	6,522	7,782	14,362	12,607
Due after more than one year				
Prepayments and accrued income	232	231	214	100
	6,754	8,013	14,576	12,707

Prepayments due after more than one year relate to prepaid costs on long-term leases.

#### \* Accounting Direction Part 2 42

The note should include disclosure of any NPV adjustment to rental arrears where a repayment schedule is in place and the adjustment is material and the amount of any provisions for bad and doubtful debts. Note, the unwinding of the discount is recognised as a finance cost.

Rents paid in advance should be shown as a creditor, not netted off against arrears.

# 21 Creditors: amounts falling due within one year

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Debt (note 25)	4,582	3,173	705	180

Obligations under finance leases	1,006	1,431	1,006	1,431
	580,855	587,064	606,765	601,365

The amounts owed to group undertakings is with the association's subsidiary Friends Housing Association, a registered provider of social housing.

### 23 Deferred grant income

	2024 £'000	2023 £'000
At 1 April	170,054	172,060
Grant received in the year	1,584	2,507
Released to income in the year	(5,767)	(4,513)
At 31 March	165,871	170,054

	165,871	170,054
Amounts to be released in more than one year	160,471	165,762
Amounts to be released within one year	5,400	4,292
	2024 £'000	2023 £'000

# 24 Recycled capital grant fund

#### Accounting Direction 2022 Part 2 41

In respect of the recycled capital grant fund:

- a a reconciliation between the balance held at the beginning of the period of account and the balance at the end of the period of account, showing amounts added into and taken out of the RCGF,
- b the source and use or allocation of funds should be disclosed,
- c the amounts which are outstanding for three or more years or otherwise potentially due for repayment to the Homes England or the Greater London Authority.

Any amount is to be considered material. Refer to Accounting Direction Annex 2 (format of disclosure).

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
At 1 April	7,059	5,666	7,059	5,666
Grants recycled	6,384	5,301	6,384	5,301

	5,055	7,059	5,055	7,059
Repayment of grant to Homes England/GLA	-	-	-	-
At 31 March	5,055	7,059	5,055	7,059
Amount of grant due for repayment	-	-	-	-

### 25 Debt analysis

	Group	Group		
	2024	2023	2024	2023
Borrowings	£'000	£'000	£'000	£'000
Due within one year				
Bank overdraft	579	483	705	180
Bank Ioans	4,003	2,690	-	-
Other loans	-	-	-	-
	4,582	3,173	705	180
Due after more than one year				
Bank Ioans	419,742	420,006	418,895	414,074
Other loans	42	85	42	85
Less: issue costs	(3,052)	(5,355)	(2,838)	(3,184)
	416,732	414,736	416,099	410,975
Total borrowings	421,314	417,909	416,804	411,155

#### Security

Local authority and other loans are secured by fixed charges on individual properties. The bank loans are secured by a floating charge over the assets of the association and by fixed charges on individual properties.

#### Terms of repayment and interest rates

The other loans from local authorities are repaid in half-yearly instalments, over the estimated life of the scheme on which the loan is secured, at fixed rates of interest ranging from 5% to 7.5%. The final instalments fall to be repaid in the period 2020 to 2050. The bank and other loans are repaid in half-yearly instalments at fixed rates of interest ranging from 5.6% to 8.1%. The final instalments fall to be repaid in the period 2020 to 2028. The loans contain 'two-way break clause' which is applicable where the loan is repaid early and could result in a break cost or a break gain. In a prepayment scenario that results in a break gain, the loan agreement provides for the repayment of the capital at par. Any break gain payable by the lender would be in relation to future interest periods only.

At 31 March 2024 the group had undrawn loan facilities of £35m (2023: £35m).

Based on the lender's earliest repayment date, borrowings are repayable as follows:

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
	4,582	3,173	705	180
One year or more but less than two years	4,801	3,594	705	180
Two years or more but less than five years	14,403	10,782	2,115	540
Five years or more	397,528	400,360	413,279	410,255
	421,314	417,909	416,804	411,155

#### **Obligations under finance leases**

	Group		Association	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000
Due within one year	288	256	288	266
Due after more than one year	1,006	1,431	1,006	1,431
	1,294	1,687	1,294	1,697

The obligations under finance leases are repayable by equal instalments in less than five years. Finance leases relate to vehicles used by the Association. A purchase option is available at the end of each three-year lease.

### 26 Pensions

FRS 102 28.41 - This section sets out the disclosure requirements for defined benefit pension schemes.

#### Midshire County Council Pension Fund (MCCPF) - Group and Association

The MCCPF is a multi-employer scheme, administered by Midshire County Council under the regulations governing the Local Government Pension Scheme, a defined benefit scheme. The most recent formal actuarial valuation was completed as at 31 March 2021 and rolled forward, allowing for the different financial assumptions required under FRS 102, to 31 March 2024 by a qualified independent actuary.

The net defined benefit liability at the year ended 31 March 2024 is £14,198k (2023: £11,745k).

The employer's contributions to the MCCPF by the association for the year ended 31 March 2024 were £1,790k (2023: £1,505k) at a contribution rate of 18.9% of pensionable salaries. The employer's contribution rate for the year ending 31 March 2024 has been set at 18.9%. Estimated employer's contributions to the MCCPF during the accounting period commencing 1 April 2024 are £1,876k.

#### Social Housing Pension Scheme (SHPS) - Group and Association

The association participates in SHPS, a multi-employer pension scheme which provides benefits to non-associated participating employers. The scheme is classed as a defined benefit scheme in the UK. The scheme is classified as a 'last man standing' arrangement. Therefore, the association is potentially liable for other participating employers' obligations if those employers are unable to meet their share of the scheme deficit following withdrawal from the scheme. Participating employers are legally required to meet their scheme deficit on an annuity purchase basis on withdrawal from the scheme.

On 1 April 2019, sufficient information became available for the association in respect of SHPS to account for its obligation on a defined benefit basis and was therefore first reflected in the year ended 31 March 2020.

The most recent formal actuarial valuation was as at 30 September 2021 and rolled forward, allowing for the different financial assumptions required under FRS 102, to 31 March 2024 by a qualified independent actuary.

The net defined benefit liability at the year ended 31 March 2024 is £16,292k (2023: £12,191k).

#### Reconciliation of opening and closing balances of the present value of scheme liabilities

	2024	2023
	£'000	£'000
Opening scheme liabilities	36,821	35,881
Current service cost	1,576	1,268
Interest cost	5,039	3,069
Losses / (gains) due to benefit changes	(787)	(999)
Actuarial gains / (losses)	(3,840)	(1,485)
Net benefits paid	(1,048)	(913)
Closing scheme liabilities	37,761	36,821

#### Reconciliation of opening and closing balances of the fair value of plan assets

	2024 £'000	2023 £'000
Opening fair value of plan assets	21,649	23,679
Interest income	3,012	998
Return on plan assets in excess of interest income	193	287
Actuarial gains / (losses)	(840)	(869)
Contributions by employer	2,593	615
Benefits paid	(3,044)	(3,061)
Closing fair value of plan assets	23,563	21,649

#### Amounts recognised in surplus or deficit

	2024	2023
Current service cost	£'000 881	£'000 805
Loss on settlements	-	-
Amounts charged to operating costs	881	805
Net interest	49	74
Amounts charged to other finance costs	49	74

#### Principal actuarial assumptions: Financial assumptions

	31 March 2024 % per annum	31 March 2023 % per annum
Discount rate	3.80%	3.70%
Future salary increases	3.50%	3.50%
Future pension increases	2.00%	2.00%
Inflation assumption	5.30%	4.20%
Amounts charged to other finance costs	49	74

#### **Mortality assumptions**

The post-retirement mortality assumptions adopted to value the benefit obligation at March 2024 and March 2023 are based on the PA92 series.

The assumed life expectations on retirement at age 65 are:

	2024	2023
	No. of years	No. of years
Retiring today:		
Males	24.9	24.1
Females	25.8	25.8
Retiring in 20 years:		
Males	28	26.8
Females	30.1	29.1

	2024 £'000	2023 £'000
Actual return on scheme assets	(9,551)	(5,689)

Major categories of plan assets as a percentage of total plan assets

	2024 %	2023 %
Equities	66.8	64.5
Gilts	8.5	11.3
Bonds	2.6	4
Properties	8.9	8.1
Cash	2.0	0.3
Other	11.2	11.8

#### Social Housing Pension Scheme (SHPS) - Group

The below disclosures have been included for illustrative purposes only. Associations should ensure that they have included the latest disclosures for SHPS in the notes to the accounts. Please visit the TPT Retirement Solutions (TPT) website for more details.

#### Reconciliation of opening and closing balances of the present value of scheme liabilities

	2024	2023
	£,000	£'000
Opening scheme liabilities	15,434	14,761
Current service cost	4,108	3008
Interest cost	1,830	1,656
Losses / (gains) due to benefit changes	(1150)	(900)
	(625)	(575)
Net benefits paid	(1138)	(948)
Closing scheme liabilities	18,459	17,002

#### Reconciliation of opening and closing balances of the fair value of plan assets

	2024	2023
	£'000	£'000
Opening fair value of plan assets	4,091	7,455
Interest income	1,576	1,012
Return on plan assets in excess of interest income	1,412	2,064
Actuarial gains / (losses)	(1,880)	(2,100)
Contributions by employer	670	659
Benefits paid	(3,180)	(4,999)
Closing fair value of plan assets	2,167	4,091

#### Amounts recognised in surplus or deficit

	2024 £'000	2023 £'000
Current service cost	1,015	883
Loss on settlements	-	-
Amounts charged to operating costs	1,015	883
Net interest	410	310
Amounts charged to other finance costs	410	310

#### Principal actuarial assumptions: Financial assumptions

	31 March 2024 % per annum	31 March 2023 % per annum
Discount rate	0.48%	1.48%
Future salary increases	2.63%	2.92%
Future pension increases	2.00%	2.00%
Inflation assumption (RPI)	5.63%	4.42%
Inflation assumption (CPI)	2.63%	2.42%

#### **Mortality assumptions**

The post-retirement mortality assumptions adopted to value the benefit obligation at 31 March 2024.

The assumed life expectations on retirement at age 65 are:

	2024	2023 No. of years
	No. of years	
Retiring today:		
Males	18.9	20.3
Females	19	21.2
Retiring in 20 years:		
Males	18.2	20.6
Females	17.8	21.2
	2024	2023
	£'000	£'000
Actual return on scheme assets	(9,551)	(5,689)

#### Major categories of plan assets as a percentage of total plan assets.

	2024 %	2023 %
Equities	72.2	70.3

Other	13.4	11.8

### 27 Provisions for liabilities - deferred tax

#### FRS 102 21.14

The provision for the opening and closing position must be shown with any movements shown in the table. Disclosure must also be made to state the nature of the provision if not disclosed already within the accounting policies. Comment must also be included about any uncertainties about the amount or timing and any expected reimbursement

Group and Association	Deferred taxation £'000
At 1 April	1,589
Adjustment in respect of prior years	(1,231)
Deferred tax charged to the income and expense in arriving at the surplus for the year	62
Deferred tax charge to OCI in arriving at the total comprehensive income for the year	387
At 31 March	807

	2024 £'000	2024 <b>£'000</b>
Accelerated capital allowance	511	1,006
Defined benefit pension scheme - Midshire County Council Pension Fund (MCCPF)	(341)	(480)
Defined benefit pension scheme –SHPS obligation	(1,093)	(1,671)
Revalued investment properties	116	(444)
	(807)	(1,589)

#### FRS 102 29.27 (c), (e) and (f)

The amount of the net reversal of deferred tax expected to occur next year is £412k (2023: £470k), relating to the reversal of existing timing differences on tangible fixed assets, revalued investment properties and defined benefit pension schemes. Unused tax losses totalled £nil (2023: £nil). The Association parent entity had no deferred tax provision at the year end (2023: £nil). In the year ended 31 March 2024 a deferred tax asset of £1,093k (2023: £1,671k) has been recognised relating to the SHPS defined benefit liability and £341k (2023: £4805k) has been recognised relating to the Midshire County Council Pension Fund (MCCPF).

# 28 Share capital

The association is limited by guarantee and therefore has no share capital. Each member (see numbers below) agrees to contribute £1 in the event of the association winding up.

	2024 No	2024 No
At 1 April	51	51
Joining during the year	4	2
Leaving during the year	(3)	(2)
At 31 March	58	51

# 29 Cash flow from operating activities

	2024	2023
	£'000	£'000
Surplus for the year	992	195
Adjustments for non-cash items:		
Depreciation of housing properties	13,981	12,085
Depreciation of other fixed assets	5,559	5,400
Impairment charge	210	430
Amortisation of intangible assets	1,170	1,115
Decrease/(increase) in trade and other debtors	1,259	(453)
Increase/(decrease) in trade and other creditors	4,998	(1,079)
Increase/(decrease) in stock	(2,900)	49
Pension costs less contributions paid	(8,937)	(4,568)
Adjustments for investing or financing activities:		
Net gain on sale of fixed assets	1,833	2,984
Interest payable	11,500	16,033
Interest received	(1,008)	(823)
Taxation	52	43
Net cash generated from operating activities	28,709	31,411

**FRS 102 paragraph 7.22** requires the disclosure of a net debt reconciliation, which is an analysis of changes in net debt from the beginning to the end of the reporting period showing changes resulting from:

- the cash flows of the entity,
- the acquisition and disposal of subsidiaries,
- new finance leases entered into,
- other non-cash changes,
- the recognition of changes in market value and exchange rate movements.

When several balances (or parts thereof) from the statement of financial position have been combined to form the components of opening and closing net debt, sufficient detail shall be shown to enable users to identify these balances. Comparative information is not required.

### 29a Analysis of changes in net debt

					Foreign	Other	
	At 1 April		New Finance	Fair value	exchange	non-cash	At 31 March
	2023	Cash flows	lease	movements	movements	movements	2024
	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Cash	7,438	(1,776)	-	-	(78)	-	5,584
Money market deposits at call, seven day or							
monthly floating rates	3,391	(253))	-	-	-	-	3,138
	10,829	(2,029)	-	-	(78)	-	8,722
Overdraft repayable on demand*	(483)	(96)	-				(579)
Bank loans due within one year	(2,690)	(1,081)	-	-	-	(232)	(4,003)
Bank loans due greater than one year	(414,736)	(2,228)	-	-	-	232	(416,732
Finance lease obligations	(1,687)	393	-	-	-	-	(1,294)
			-	-	-	-	
Total	(408,767)	(5,041)	-	-	(78)	-	(413,886)

**FRS 102.7.2 Bank** overdrafts are normally considered financing activities similar to borrowings. However, if they are repayable on demand and form an integral part of an entity's cash management, bank overdrafts are a component of cash and cash equivalents.

\*In the model accounts, the overdraft facility is repayable on demand but excluded from cash and cash equivalents as not considered an integral part of the entity's cash management.

### **30 Capital commitments**

	Group		Association	
	2024	2023	2024	2023
	£'000	£'000	£'000	£'000
Capital expenditure				
Expenditure contracted for but not provided in the accounts	57,005	80,761	57,005	80,761
Expenditure authorised by the board, but not contracted	66,913	34,081	66,913	34,081
	123,918	114,842	123,918	114,842

The above commitments will be financed primarily through borrowings (£77,1311k), which are available for draw-down under existing loan arrangements, with the balance (£24,7876k) funded through social housing grant and property sales (£22,000k).

#### Accounting Direction 2022 Part 2 44 and 45

Capital funding and commitments disclosure should include;

- a the aggregate amount of contracts for capital expenditure, so far as not provided for,
- b the aggregate amount of capital expenditure approved by the directors which has not been contracted for,
- c an indication of the proposed financing of such expenditure, showing the amount of grant, agreed loans, loans under negotiation, property sales and any other sources of funding.

Particulars shall also be given of any other financial commitments which have not been provided for and are relevant to assessing the PRP's state of affairs.

### 31 Contingent assets/liabilities

The group and association had no contingent assets at 31 March 2024 (2023: nil).

The group receives a capital grant from Homes England, which is used to fund the acquisition and development of housing properties and their components. In certain circumstances upon disposal of grant funded properties the group is required to recycle this grant by crediting the Recycled Capital Grant Fund.

At 31 March 2024, the group has disposed of components, which had received £41,000 (2023: £48,000) of grant funding. Although the disposal of these components has not given rise to a relevant event for the purposes of recycling the grant (as the group retains the property asset) it does have a future obligation to recycle this grant once the property is disposed of.

As the timing of any future disposal is uncertain, no provision has been recognised in these financial statements. The group and association had no other contingent liabilities at 31 March 2024 (2023: £nil).

### 32 Leasing commitments

#### FRS 102 20.13 and SORP 10.4

The total future minimum lease payments of leases are as set out below. Leases relate to shared office space in three locations and to computers.

The association and group's future minimum operating lease payments are as follows:

	2024 £'000	2023 £'000
Within one year	580	կկկ
Between two and five years	650	678

### 33 Related parties

#### Accounting Direction 2022 Part 2 48 (see also FRS 102.33)

The Direction requires disclosure of relationships of parents and subsidiaries and registered and unregistered group or associated bodies, irrespective of whether there have been transactions between those related parties. Disclosures are also required under FRS 102.33; including:

- names and relationships of the related parties
- description of the transaction
- amounts involved in the transaction
- amounts due to or from at the reporting date
- any amounts provided for or written off in relation to the related party.

Transactions may be aggregated unless individual disclosure is necessary for an understanding of the impact of the transactions on the reporting entity.

SORP 16.9 also requires that disclosures of transactions with tenant board members are included in aggregate, regardless of whether the transactions are at arm's length or not.

Linda Carter, a member of the board, is a trustee of Friendly Charity. The charity manages the group's Supported Hostels providing special care services. During the year, the group paid management fees totalling £6k (2023: £5.5k) to Friendly Charity.

There are two tenant members of the board, Michael Shore and Caroline Drake. Their tenancies are on normal commercial terms and they are not able to use their position to their advantage. At the year-end £nil (2023: £nil) amounts were outstanding and rental income of £32k (2023: £30k) was received in the year.

New Housing Limited, Friends Housing Association Limited and AHP Limited are wholly owned subsidiaries of the association at the end of the year. New Housing Limited and Friends Housing Association are registered providers of social housing. AHP Limited, is a non-regulated registered company under the Companies Act 2006. Disclosures in relation to investments in subsidiaries, including details on transactions with unregistered entities is in Note 18.

Amounts owed by group undertakings is disclosed in Note 20 and amounts owed to group undertakings in Note 21 and 22.

The group considers the key management personnel to be the Board and Executive Team. Disclosures in relation to key management personnel are included in note 11.

### 34 Financial assets and liabilities

#### FRS 102 11.41

An entity shall disclose separately the carrying amounts at the reporting date of financial assets and financial liabilities measured at fair value through profit or loss. This disclosure may be made separately by category of financial instrument. Financial liabilities that are not held as part of a trading portfolio and are not derivatives shall be shown separately.

The disclosures in the table below include both the required disclosures and also includes best practice disclosures to aid the understanding of the users of the accounts.

#### Categories of financial assets and financial liabilities

	2024 £'000	2023 £'000
Financial assets that are debt instruments measured at amortised cost	18,764	20,876
Financial liabilities measured at fair value through surplus or deficit	(87,650)	(91,560)
Financial liabilities measured at amortised cost	(508,755)	(543,190)
Total	(577,641)	(613,874)

#### FRS 102 11.48A

Certain disclosures are required for financial instruments at fair value through surplus or deficit that are not held as part of a trading portfolio and are not derivatives. This should include information on the nature and extent of the relevant risks arising.

#### FRS 102 11.48(f) - Financial risk management

Information that enables users of the entity's financial statements to evaluate the nature and extent of relevant risks arising from financial instruments to which the entity is exposed at the end of the reporting period. These risks typically include, but are not limited to, credit risk, liquidity risk and market risk. The disclosure should include both the entity's exposure to each type of risk and how it manages those risks.

FRS 102.11.48A(f) risk disclosures only apply if the entity measures financial instruments at fair value through profit and loss in accordance with paragraph 36(4) of Schedule 1 to the Regulations (in the case of those incorporated under the Companies Act 2006).

However, even if this is not applicable the association should give financial instruments risk disclosures in its directors' report if material for an understanding of its financial position and performance.

In addition, FRS 102.11.43 states that when the risks arising from financial instruments are particularly significant to the business (for example because they are principal risks for the entity), additional disclosure may be required.

This risk disclosure would be included in the Directors report to comply with SI 2008/4107 Sch 6, or in the accounts to comply with FRS 102.11.48A(f). The latter only applies if there are financial instruments at fair value (which is the case in these model accounts).

Associations should disclose the financial risks in accordance with the above requirements. Where these disclosures are reported in the notes to the accounts in accordance with FRS 102.11.48A(f), the association should cross refer to this note in the directors' report.

### Financial risk management

#### **Risk management objectives and policies**

The Board governs the treasury activities of all the group's legal entities. The association's centralised treasury function is responsible for the management of funds and control of associated risks, with responsibility for the management of liquidity, interest rate and counterparty risk. The strategy has an overriding objective of the avoidance of unacceptable risk, with surplus cash being invested with approved counterparties (banks and money market funds) in line with Treasury Management Policy that defines credit quality criteria and maximum exposure limits.

The main risk facing the group is that it will be unable to make its interest or principal payments when they fall due. This risk is through funding being arranged under secured loan agreements, which is backed by housing assets of the group and association. The bank loans are secured by a floating charge over the assets of the association and by fixed charges on individual properties.

Affordable Housing Provider benefits from 'A3' credit rating from Moody's Investor Services.

#### **Counterparty risk**

The group maintains a formal counterparty policy in respect of those institutions where surplus funds may be deposited. Deposits are made either in call accounts, or where the notice period is no more than one year. In addition, the credit ratings of institutions are regularly reviewed and form part of any investment decision.

It is recognised that the current economic uncertainties driven by the cost-of-living crisis and high inflation and interest rates could put financial institutions under increased stress due to a prolonged period of loan defaults. The failure of a counterparty is deemed a low risk, but the group treasury function will continue to ensure that cash balances held are spread over several counterparties.

#### Interest rate risk

The group borrows from banks at varying types of interest rates; both fixed and floating rates including interest at rates based on the three-month SONIA. Scenario analysis has been run to assess the sensitivity of the floating debt to movements in interest rates. The group does not have any material non-Sterling or exchange rate exposures.

#### **Market risk**

The group's financial assets and liabilities do not create any material exposure to price, foreign exchange or other market risks.

#### **Liquidity risk**

Liquidity is a key risk which is managed using well established cash forecasting and business planning process which are regularly stress tested using single and multi variate scenarios. The association's operations are financed through a mixture of generated cash flows, government grants for development activities and loan borrowings. The interest rate strategy is regularly reviewed and aims to achieve a conservative balance between fixed and variable debt at an acceptable level of risk and cost. Covenant compliance and sensitivity analysis of interest rates are monitored on a regular basis.

It is considered that the group has sufficient financial resources to make debt repayments, and therefore the risk of being unable to meet its financial obligations to these lenders is considered to be low.

#### **Credit risk**

Credit risk is a significant risk to the group and is subject to enhanced consideration following the introduction of Welfare Reform and Universal Credit changes, specifically the government's decision to transfer benefit payments directly to some tenants. Note 20 sets out the level of bad and doubtful debts provided at the year end.

Detailed scenario planning is used to estimate the impact of any government policy changes on existing and future tenancies. The business plan takes account of these changes in setting future levels of customer indebtedness. The risk is mitigated with the mechanisms established to support and sustain tenancies and focus on affordability as part of the tenancy allocation processes.

	2024	2023
The following disclosures would be repeated for each relevant item	£'000	£'000
The amount of change during the period attributable to changes in the credit risk $^{st}$	-	-
The difference between the financial liability's carrying amount and the amount the entity would be contractually obliged to pay at maturity	11,085	17,821

\*calculated as the amount of change in fair value not attributable to changes in market conditions that give rise to market risk.

#### Financial liabilities excluding trade creditors - interest rate risk profile

The interest rate profile of the group's financial liabilities at 31 March was:

Floating rate Total borrowings	323,229 <b>421,31</b> 4	312,909 <b>417,909</b>
Fixed rate	98,085	105,000
	2024 £'000	2023 £'000

The floating rate financial liabilities comprise bank loans that bear interest at rates based on the three-month SONIA. The fixed rate financial liabilities have a weighted average interest rate of 8.83 % (2023: 7.70%) and the weighted average period for which it is fixed is 22 years (2023: 24 years).

The debt maturity profile is shown in note 25.

#### **Borrowing facilities**

The group has undrawn committed borrowing facilities. The facilities available at 31 March in respect of which all conditions precedent had been met were as follows:

Expiring in more than two years	34,700	34,980
	£'000	£'000
	2024	2023
